The Dialectical Necessity Of Morality An Analysis Defense Of Alan Gewirths Ar:

The Dialectical Necessity of Morality Deryck Beyleveld, 1991 Alan Gewirth's *Reason and Morality* in which he set forth the Principle of Generic Consistency is a major work of modern ethical theory that though much debated and highly respected has yet to gain full acceptance Deryck Beyleveld contends that this resistance stems from misunderstanding of the method and logical operations of Gewirth's central argument In this book Beyleveld seeks to remedy this deficiency His rigorous reconstruction of Gewirth's argument gives its various parts their most compelling formulation and clarifies its essential logical structure Beyleveld then classifies all the criticisms that Gewirth's argument has received and measures them against his reconstruction of the argument The overall result is an immensely rich picture of the argument in which all of its complex issues and key moves are clearly displayed and its validity can finally be discerned The comprehensiveness of Beyleveld's treatment provides ready access to the entire debate surrounding the foundational argument of *Reason and Morality* It will be required reading for all who are interested in Gewirth's theory and deontological ethics and will be of central importance to moral and legal theorists

Sterba, 2013-02-14 Most contemporary moral and political philosophers would like to have an argument showing that morality is rationally required In *From Rationality to Equality* James P Sterba provides just such an argument and further shows that morality so justified requires substantial equality His argument from rationality to morality is based on the principle of non question beggingness and has two forms The first assumes that the egoist is willing to argue for egoism non question beggingly and the second only assumes that the egoist is willing to assent to premises she actually needs to achieve her egoistic goals Either way he argues morality is rationally i e non question beggingly preferable to egoism Sterba's argument from morality to equality non question beggingly starts with assumptions that are acceptable from a libertarian

perspective the view that appears to endorse the least enforcement of morality and then shows that this perspective requires a right to welfare which when extended to distant peoples and future generations leads to equality He defends his two part argument against recent critics and shows how it is preferable not only to alternative attempts to justify morality but also to alternative attempts to show that morality leads to a right to welfare and or to equality **R.M.
