**Repatriation, Exchange, and Colonial Legacies in the Gulf of Papua** Lara Lamb,Christopher Lee,2023-01-01 This book explores the people of the Kikori River Delta in the Gulf of Papua as established historical agents of intercultural exchange One hundred years after

they were made Frank Hurley's colonial era photographic reproductions are returned to the descendants of the Kerewo and Urama peoples whom he photographed The book illuminates how the movement use and exchange of objects can produce distinctive and unrecognised forms of value To understand this exchange a nuanced history of the conditions of the exchange is necessary which also allows a reconsideration of the colonial legacies that continue to affect the social and political worlds of people in the twenty first century **The Aesthetics of the Undersea** Margaret Cohen, Killian Quigley, 2018-12-20 Among global environments the undersea is unique in the challenges it poses and the opportunities it affords for sensation perception inquiry and fantasy The Aesthetics of the Undersea draws case studies in such potencies from the subaqueous imaginings of Western culture and from the undersea realities that have inspired them The chapters explore aesthetic engagements with underwater worlds and sustain a concern with submarine sense in several meanings of that word when submerged faculties and fantasies transform confronting human subjects with their limitations while enlarging the apparent scope of possibility and invention Terrestrially established categories and contours shift metamorphose or fail altogether to apply As ocean health acquires an increasing share of the global environmental imaginary the histories of submarine sense manifest ever greater importance and offer resources for documentation as well as creativity The chapters deal with the sensory material and formal provocations of the underwater environment and consider the consequences of such provocations for aesthetic and epistemological paradigms Contributors who hail from the United States United Kingdom and Australia include scholars of literature art new media music and history Cases studies range from baroque and rococo fantasies to the gothic surrealism modernism and contemporary installation art By juxtaposing early modern and Enlightenment contexts with matters of more recent and indeed contemporary importance The Aesthetics of the Undersea establishes crucial relations among temporally remote entities which will resonate across the environmental humanities

Falcon Scott Beginning his book on board an expedition ship bound for the Antarctic Dr Day asks the difficult questions that have hitherto lain buried about Mawson his leadership of the ill fated Australasian Antarctic Expedition of 1911-14 his conduct during the trek that led to the death of his two companions and his intimate relationship with Scott's widow. The author also explores the ways in which Mawson subsequently concealed his failures and deficiencies as an explorer and created for himself a heroic image that has persisted for a century. To bolster his career and dig himself out of debt Mawson would have to return from Antarctica with a stirring story of achievement calculated to capture public attention. South Pole expeditions by among others Robert Falcon Scott and Roald Amundsen were going on at the same time. With Amundsen having reached the South Pole and Scott having died on his return Mawson would be forgotten if he did not return with an exciting story of achievement and adversity. Overcome Mawson obliged though the truth was something entirely different. For many decades there has been only one published first hand account of the expedition Mawson's. Only now have alternative accounts become publicly available. The most important of these is the long suppressed diary of Mawson's deputy Cecil Madigan who is scathing in his criticisms of Mawson's abilities, achievements and character. He instructed that his diary was not to be published until the last of Mawson's children had died. At the same time other accounts have appeared from leading members of the expedition that also challenge Mawson's official story. While most historians ascribe the deaths of the two men to bad luck the author's re-examination of the existing evidence and a reading of the new evidence reveals that the deaths of two men on the expedition were caused by Mawson's relative inexperience, overweening ambition and poor decision making. In fact there's some suggestion that Mawson was consciously responsible for one's starvation so that Mawson himself could survive on the limited food rations. After the death of his companions Mawson's bungling of his return to the ship forced a team to remain for another full year during which he recovered his strength and began to craft an image of himself as a courageous and resourceful polar explorer. The British Empire needed heroes and Mawson was determined to provide it with one. In this compelling and revealing new book David Day draws upon all this new evidence as well as on the vast research he undertook for his international history of Antarctica and on his own experience of sailing to the Antarctic coastline where Mawson's reputation was first created. Flaws in the Ice will change perceptions of Douglas Mawson one of the icons of the Heroic Age of Antarctic Exploration forever.
