The Diaries Of Kenneth Tynan By Kenneth Tynan 2002 10 :

The Story of Warrington Bill Cooke,2020-08-11 Bill Cooke is to be congratulated on his extensive and knowledgeable account of Warrington's history Harry Wells author of Medieval Warrington In 2015 Warrington was named by the Royal Society of Arts as the least culturally alive town in England But was this a fair evaluation In his new book Bill Cooke offers a dramatic reexamination of the town Looking back on its fascinating history dating back to the Romans The Story of Warrington demonstrates an extensive and diverse cultural history Should Warrington apologise for the person who supported Richard III against the Princes in the Tower Why was Warrington thought of as the Athens of the North What role did the town play in the Industrial Revolution and the slave trade How did Warrington help win the Cold War With insights into these questions and more readers are presented with the other side of the argument and learn key facts about the history of this British town

Family Britain, 1951-1957 David Kynaston,2009-11-02 As in Austerity Britain an astonishing array of vivid intimate and unselfconscious voices drive the narrative The keen eyed Nella Last shops assiduously at Barrow Market as austerity and rationing gradually give way to relative abundance housewife Judy Haines relishing the detail of suburban life brings up her children in Chingford the self absorbed civil servant Henry St John perfects the art of grumbling These and many other voices give a rich unsentimental picture of everyday life in the 1950s We also encounter well known figures on the way such as Doris Lessing joining and later leaving the Communist Party John Arlott sticking up on Any Questions for the rights of homosexuals and Tiger's Roy of the Rovers making his goal scoring debut for Melchester All this is part of a colourful unfolding tapestry in which the great national events the Tories returning to power the death of George VI the Coronation of Queen Elizabeth the Suez Crisis jostle alongside everything that gave Britain in the 1950s its distinctive flavour Butlin's holiday camps Kenwood food mixers Hancock's Half Hour Ekco television sets Davy Crockett skiffle and teddy boys Deeply researched David Kynaston's Family Britain offers an unrivalled take on a largely cohesive ordered still very hierarchical society gratefully starting to move away from the painful hardships of the 1940s towards domestic ease and affluence

The Traveling Economist Todd A. Knoop,2017-03-09 This fascinating book introduces travelers of the body or the mind to a few simple economic concepts that will help them to think differently and more deeply about the differences between the people and the places they visit during their journeys The principles and mechanics of economics are firmly rooted in everything around us in our home country as well as in every nation and culture around the world Having a basic grasp of economics can help all travelers to think more carefully about why things work differently in different places Armed with this knowledge readers will be equipped to better appreciate and learn from the beauty and complexity of the world around us The Traveling Economist Using Economics to Think about What Makes Us All So Different and the Same illustrates important economic concepts that every traveler and world citizen should understand Employing clear jargon free explanations and illustrated with real life examples Knoop uniquely focuses on the interplay between travel

and economics He uses our shared travel experiences to illustrate exactly how economic thinking supplies such a powerful framework for understanding the world around us More than simply explaining economics through travel experiences this book enables adventurers who desperately want to avoid being tourists i e people who travel to see what they know is there to become explorers those who learn each and every day from what they witness **Performing Illusions** Dan R.

North,2008 The camera supposedly never lies yet film s ability to frame cut and reconstruct all that passed before its lens made cinema the pre eminent medium of visual illusion and revelation from the early twentieth century onwards This volume examines film s creative history of special effects and trickery encompassing everything from George M li s first trick films to the modern CGI era Evaluating movements towards the use of computer generated synthespians in films such as Final Fantasy the Spirits Within 2001 this title suggests that cinematic effects should be understood not as attempts to perfectly mimic real life but as constructions of substitute realities situating them in the cultural lineage of the stage performers and illusionists and of the nineteenth century With analyses of films such as Destination Moon 1950 Spider Man 2002 and the King Kong films 1933 and 2006 this new volume provides an insight into cinema s capacity to perform illusions **The**
