The Architecture of the Bight of Biafra Joseph Godlewski, 2024-03-06 The Architecture of the Bight of Biafra challenges linear assumptions about agency progress and domination in colonial and postcolonial cities adding an important sub Saharan case study to existing scholarship on globalization and modernity Intersected by small creeks rivulets and dotted with mangrove swamps the Bight of Biafra has a long history of decentralized political arrangements and intricate trading networks predating the emergence of the Atlantic world While indigenous merchants in the region were active participants in the transatlantic slave trading system they creatively resisted European settlement and maintained indigenous sovereignty until the middle of the nineteenth century Since few built artifacts still exist this study draws from a close reading of written sources travelers accounts slave traders diaries missionary memoirs colonial records and oral histories as well as contemporary fieldwork to trace transformations in the region s built environment from the sixteenth century to today With each chapter focusing on a particular spatial paradigm in this dynamic process this book uncovers the manifold and inventive ways in which actors strategically adapted the built environment to adjust to changing cultural and economic circumstances In parallel it highlights the ways that these spaces were rhetorically constructed and exploited by foreign observers and local agents Enmeshed in the history of slavery colonialism and the modern construction of race the spatial dynamics of the Biafran region have not been geographically delimited The central thesis of this volume is that these spaces of entanglement have been productive sites of Black identity formation involving competing and overlapping interests occupying multiple positions and temporalities and ensnaring real imagined and sometimes contradictory aims This book will be of interest to researchers and students of architecture architectural history urban geography African studies and Atlantic studies

this diaspora which were induced by the mercantilist preoccupations of Western Europe The entire period is portrayed as a battle between two conflicting and opposite strategies that of the slavocracy and that of the enslaved Africans culminating in the conversion of the French colony of St Domingue into the revolutionary state of Haiti The author suggests that Haiti because of its position in the midst of hostile slave societies provided inspiration for the antislavery crusade in both its particularistic and its international aspects The epilogue provides a glimpse into the author s second book on the divergent perceptions in the early evolution of leadership in the African diaspora in the Americas Amazon com viewed Oct 26 2022
