The Dream Culture Of The Neanderthals Guardians Of The Ancient Wisdom:

The Dream Culture of the Neanderthals Stan Gooch, 2006-01-12 Explores the influence of Neanderthal man on the cultural and biological development of humanity Traces the power of long held beliefs and superstitions to the influence of Neanderthal lunar and dream based traditions Offers a compelling vision of a unified humanity that can benefit from the gifts of both its Neanderthal and Cro Magnon ancestors Provides evidence that direct descendants of the Neanderthal race may still be alive in Central Asia A number of long standing beliefs and superstitions show how the ideas that dominated the lives of our ancestors still have a powerful influence on us today The disturbing power attributed to the number thirteen the positive influence of the number seven and the comfort offered by the admonition knock wood all reveal the enduring presence of our most ancient ancestors the Neanderthals Contrary to current theories Stan Gooch maintains that the Neanderthals were not destroyed by the younger Cro Magnon culture but were incorporated into that culture through interbreeding The blending of the disparate influences of the lunar matriarchal based Neanderthals and the solar patriarchal Cro Magnons may explain the contradictory impulses and influences that have generated human conflict for millennia In fact the author suggests that the caste system in India may have been constructed to utilize the strengths of both lunar and solar cultures and to minimize the conflict between the two There is evidence that direct descendents of the moon worshipping dream cultivating Neanderthal race are still living in Central Asia today While their physical descendants may be almost extinct the influence of Neanderthal wisdom remains strong and can be found not only in witchcraft lore and the Kabbalah but in the formative tenets of the Knights Templar the Rosicrucians and even Christianity *The Origins of Psychic Phenomena* Stan Gooch, 2007-02-07 Examines unexplained phenomena in psychiatric and psychological terms rather than occult terms Explores how the unconscious mind manifests paranormal phenomena Shows how the cerebellum the seat of the unconscious is the source of these energies subpersonalities and manifestations Identifies our neglected Neanderthal subconscious as responsible for the rising incidence of paranormal happenings Alien abduction poltergeist attacks incubi succubi split and multiple personalities possessions precognition spontaneous combustion the list of phenomena not just unexplained but ignored by mainstream science seems endless Yet the key to the origin of all these manifestations lies deep within our own brains In *The Origins of Psychic Phenomena* Stan Gooch explores the functioning of the dream producing part of the brain the cerebellum and how the unconscious mind is able to externalize itself The cerebellum is the physical seat of the unconscious and was once equal to or even superior to the cerebrum as essential to our functioning In modern times it has been shunted into the subliminal yet the cerebellum continues to process our worldly experiences and reveals its concerns in misunderstood often frightening manifestations Gooch explains that Neanderthal Man possessed a much larger cerebellum than Cro Magnon Man and posits that the modern repression of the cerebellum's role in our consciousness has given rise to these supernatural phenomena *The Windows of Saint Joseph* Claudia Mazzucco, 2009-04 Autism is a house

without doors but sometimes a window is opened For me that window was religion Too early in my life I was blessed to perceive religion as it really is and though in the very depth of my self I knew that child abuse didn't apply in this case the images that Islam and the Inquisition evoke in me were almost too horrible to bear In a word I was terrified of religion How little we know what a religious experience really is even our own Certainly after two years of meetings and daily masses there was no sense of reality that my mind could provide for the content of Catholic doctrines thereby invalidating them I had never really noticed what the rules of Catholicism were and what typical Catholics experienced However far I fall short of their understanding I think my real trouble was I didn't have a theory of mind thus I concluded that everybody including the priest who had to celebrate mass experienced what I did The theory of the mind runs very deep It underscores the big words the kinds of words that make consciousness possible self community freedom itself I have indeed become conscious of my freedom How far down would I need to dig to discover the Risen Christ Claudia Mazzucco has published a number of articles on the history of golf in magazines periodical publications and online magazines She has also researched various subjects including the historical background for Roberto De Vincenzo's Biography published in Buenos Aires in 2005 and The Guide of Golf Courses in Argentina Santillana 2003 She has edited more than twenty books on data and statistics about golf and taught history of this game in the PGA of Argentina for several years before deciding to devote full time to writing
