## **The Dream Endures California Enters The 1940s Americans And The California Dream:**

**The Dream Endures** Kevin Starr,1997 The 1930s were the heyday of the Hollywood studios and Starr brilliantly captures Hollywood films and the society that surrounded the studios     *The Dream Endures: California Enters the 1940s* Kevin Starr,1997-03-19 The fifth volume in Starr's classic history of California The Dream Endures shows how Californians rebounded from the Great Depression to emerge in the 1930s into what is now known as the good life Starr illustrates the ways the good life prospered in California in film fiction leisure and architecture Starr looks at the newly important places where Californians lived out this sunny lifestyle areas like Los Angeles where Hollywood lived Palm Springs where Hollywood vacationed San Diego where the Navy went the California Institute of Technology in Pasadena where Einstein changed his view of the universe and college towns like Berkeley In this more than any other of Starr's monumental California histories we see the stirrings of uniqueness in the social and cultural evolution of California Starr's theme is relevant to all of America and the national destiny Neil Morgan San Diego Union Tribune Enormously sensitive and moving Social and cultural history doesn't get any better San Francisco Chronicle In his monumental continuing study of California Kevin Starr belongs in the company of the best Herbert Gold Los Angeles Times Book Review     *Living the California Dream* Alison Rose

Jefferson,2022 Alison Rose Jefferson examines how African Americans pioneered America's frontier of leisure by creating communities and business projects in conjunction with their growing population in Southern California during the nation's Jim Crow era     *A Companion to California History* William Deverell,David Igler,2014-01-28 This volume of original essays by leading scholars is an innovative thorough introduction to the history and culture of California Includes 30 essays by leading scholars in the field Essays range widely across perspectives including political social economic and environmental history Essays with similar approaches are paired and grouped to work as individual pieces and as companions to each other throughout the text Produced in association with the Huntington USC Institute on California and the West     **Made in**

**California** Stephanie Barron,Sheri Bernstein,Ilene Susan Fort,2000 Unusually inclusive visually intriguing and beautifully produced Made in California will appeal to anyone who has lived in visited or imagined California     *Projecting Paranoia*

Ray Pratt,2001 A wide ranging and idiosyncratic look at sixty years of politics and film that uncovers how American movies have mirrored and even challenged anxieties and paranoid perceptions embedded in American society since the start of the Cold War The first book to take a sweeping look at 60 years of film and analyze them thematically     **Redemptive Dreams**

Jason S. Sexton,2023-11-10 An essential piece in California Studies Redemptive Dreams Engaging Kevin Starr's California offers the first critical engagement with the vision of California's most ambitious interpreter While Starr's multifaceted and polymathic vision of California offered a unique gaze synthesizing central features big themes and incredible problems with the propitious golden dream his eight volume California Dream series along with several other books and thousands of published articles and essays often puzzled historians and other scholars Historians in the contemporary school of critical

historiography often found Starr's narrative approach seeking to tell the internal drama of the California story to be less attuned to the most important work happening in the field. Such a perspective fails to acknowledge key developments in historical subfields like Black and African American Studies, Chicana/o x Studies, Asian Studies, Native Studies, and others that draw from the narrative in their critical work and how this relates to Starr's contribution. But it also neglects Starr as a theological interpreter. Along with being a major figure in California institutional life with literary output spanning genres from journalism to critical cultural and political commentary to history and memoir, Starr's unique contribution to California Studies as a distinctly Catholic historian has yet to be adequately understood. Through his lived experience as a devout Catholic to the particular theological features of this faith tradition that animated his views, this critical sociological perspective sheds new light on his project. With contributions from sociology, history, and theology akin to investigations appearing in *Theology and California* and *Theological Refractions on California's Culture*, Routledge's *Redemptive Dreams* offers interdisciplinary perspectives that highlight key features inherent in interdisciplinary theological reflection on place and illuminates these diverse disciplinary discourses as they appear in Starr's articulation of the California Dream. Such a vision remains important for reckoning with California's place in the world.

**The Visionary State** Erik Davis, 2006-06-22

With a rich cultural history and Hollywood stars publicly attesting to a wide range of faiths, it's no surprise that California's spiritual landscape is as diverse as its natural surroundings. *The Visionary State* weaves text and image into a compelling narrative of religion, architecture, and consciousness in California, from neopaganism to televangelism, UFO cults to austere Zen Buddhism. Acclaimed culture critic Erik Davis brings together the immigrant and homegrown religious influences that have been part of the region's character from its earliest days, drawing connections between seemingly unlike traditions and celebrating the diversity of California's spiritual composition. Michael Rauner's evocative photographs depict the sites and structures where these traditions have taken root and flourished. *The Visionary State* is a landmark look at what is likely the most varied locale for religious activity anywhere.

[California History](#), 2007    [Salute to America's Librarians](#), 2007    **California** Kevin Starr, 2005

Presents a comprehensive history of the state of California, describing its early native peoples, Spanish conquest, the Gold Rush of 1848, the railroad, San Francisco earthquake, and much more.

*Religion and Public Life in the Pacific Region* Wade Clark Roof, Mark Silk, 2005

Pretty much like the rest of the country, only more so. This quip from Wallace Stegner well represents the Pacific region's religious culture: California, Nevada, and Hawaii emerged more recently, more quickly, and with more diversity and fluidity than the other United States. Although influenced by Mexican Catholicism, Native Traditions, Asian Religions, and Euro-American Christianity, no religious tradition dominates and a secular ethos usually reigns. But this very religious indifference makes California and the rest of the region open to all sorts of missionary movements and religious innovations. New organizational

forms new spiritual therapies and new religious hybrids all compete for residents attention along with secular ways for making meaning With all these options residents of the region mix match and move between religious identities more than other Americans Without ignoring its diversity Religion and Public Life in the Pacific Region highlights the key aspects of the region s fluctuating religions and its spirituality s impact on political life      *Appointment Denied* Thom Weidlich,2000-03 No Marketing Blurb      Contested Bodies and Cultures Natalia Molina,2001      **The American Scholar** William Allison Shimer,1997      *The Best Books for Academic Libraries: History of the Americas* ,2002 Books recommended for undergraduate and college libraries listed by Library of Congress Classification Numbers      The San Francisco Peace Treaty Rachel Brunette,2001      **Under the Dragon** Lonny Shavelson,Fred Setterberg,2007 The old notion of the melting pot and phrases like ethnic diversity can no longer describe the freedom with which more and more Americans are modifying and assimilating cultural elements across ethnic lines Compelling photography narrated by fascinating stories about individuals at the crossroads of ethnicity      Who's the Boss? Hans Krabbendam,Wil Verhoeven,2007 Is the present popularity of leadership studies an echo of the status of the U S as the leader of the free world or is it hype created by smart entrepreneurs Have current leadership concepts emerged from the democratic environment in America or do they reflect a globalist and timeless approach How do leadership studies reflect national values such as individualism and competition success commonly associated with American culture An international group of scholars of American society seeks to answer these questions in this volume They critically examine the terminology and the explanatory power of various leadership concepts These essays show that the promises of good leadership to protect democratic processes against political and commercial exploitation are often too optimistic Examples from military academies state politics marginal groups and African American politicians dampen high expectations for new visionary political leadership in the United States
