The Dynamics Of Economic Growth Policy Insights From Comparative Analyses In Asia:

The Dynamics of Economic Growth Vu Minh Khuong, 2013-11-29 The advancement of a nation from poverty to prosperity is not a technical process but a great transformation At the center of this change are two driving forces – emotion which is referred to as aspiration anxiety and sense of responsibility and e Annual Analysis Of Competitiveness, Simulation Studies And Development Perspective For 34 Greater China Economies: 2000-2010 Khee Giap Tan, Randong Yuan, Mu Yang, Sangiita Wei Cher Yoong, 2013-12-31 China is emerging as one of the economic giants of the world and is gaining international influence and global leadership that commensurate with its rise China's performance will have far reaching consequences on whether the economic awakening of the country which began more than three decades ago can become a good model to be emulated by other developing economies This book is a collection of policy papers and data sets for the 34 Greater China economies With a comprehensive approach to competitiveness the research by Asia Competitiveness Institute ACI at Lee Kuan Yew School of Public Policy National University of Singapore takes into account different factors that collectively shape the ability of a nation to achieve substantial and inclusive economic development over a sustained period of time ACI's methodology goes beyond rankings as it conducts policy simulations on how each economy can improve its competitiveness These policy simulations are a compelling value added proposition as they enable policymakers industry leaders and administrators to identify relative challenges and opportunities and to prioritise areas in crafting public policies and development strategies **Critical International Relations Theories in East Asia** Kosuke Shimizu, 2019-01-30 What do we study when we study International Relations IR This book interrogates the meanings of the established ontology and subjectivity embedded in the discourse of Western and non Western IR We are predisposed to see a nation state as a unified entity everlasting and moving towards a particular end This leads us to say for example Japan is threatened by the possible Chinese attack without questioning what Japan and China mean in this context This book tries to locate and unearth the consistent structure and system of the world with a particular focus on subjectivity and temporality in IR that captures the way in which we conceive and misconceive the world The contributors reveal the extent to which contemporary IR discourses are a part of the culture of linear progress and pre-given autonomous sovereign individuals Our targets of inquiry therefore inevitably include not only Western IR but non Western discourses as well The contributors focus on the fluid identities of contemporary world affairs with special attention to temporality and strive to develop a new approach to understanding the contemporary world and the meanings of world affairs The Practice of Industrial Policy John Page, Finn Tarp, 2017-03-31 This is an open access title available under the terms of a CC BY NC SA 3.0 IGO licence It is free to read at Oxford Scholarship Online and offered as a free PDF download from OUP and selected open access locations Much of the information relevant to policy formulation for industrial development is held by the private sector not by public officials There is therefore fairly broad agreement in the development literature that some form of structured engagement

often referred to as close or strategic coordination between the public and private sectors is needed both to assist in the design of appropriate policies and to provide feedback on their implementation There is less agreement on how that engagement should be structured how its objectives should be defined and how success should be measured In fact the academic literature on close coordination provides little practical guidance on how governments interested in developing a framework for government business engagement should go about doing it The burden of this lack of guidance falls most heavily on Africa where despite 20 years of growth lack of structural transformation has slowed job creation and the pace of poverty reduction Increasingly African governments are seeking to design and implement policies to encourage the more rapid growth of high productivity industries and in the process confronting the need to engage constructively with the private sector These efforts have met with mixed results For sustained success in structural transformation new policies and new approaches to government business coordination will be needed In 2014 the Korea International Cooperation Agency and UNU WIDER launched a joint research project on The Practice of Industrial Policy The objective of the project was to help African policy makers develop better coordination between the public and private sectors in order to identify the constraints to faster structural transformation and to design implement and monitor policies to remove them This book written by national researchers and international experts presents the results of that research

Intellectual Property Debates in South Asia Pratyush Nath Upreti, 2025-10-30 This book brings together leading scholars from South Asia and beyond to examine the development of intellectual property IP law within the national legal systems in South Asia It is the first comprehensive effort to consolidate the region's IP practices and narratives within a single edited volume Highlighting diverse approaches in countries such as India Pakistan Sri Lanka Nepal Bangladesh and Afghanistan the book embraces local legal ethos and promotes comparative studies at regional and international levels Structured in three parts Part 1 addresses IP through development and social justice lenses covering IP theory geographical indications technology transfer and de colonisation Part 2 examines recent legislative and judicial developments across the region Part 3 offers comparative insights with a focus on institutions courts and practices Each contribution addresses innovative IP practices and emerging challenges in South Asia offering a platform for further discussion among scholars policymakers and stakeholders

Market in State Yongnian Zheng, Yanjie Huang, 2018-09-06 Focusing on the evolving relations between the state and market in the post Mao reform era Yongnian Zheng and Yanjie Huang present a theory of Chinese capitalism by identifying and analyzing three layers of the market system in the contemporary Chinese economy These are namely a free market economy at the bottom state capitalism at the top and a middle ground in between By examining Chinese economic practices against the dominant schools of Western political economy and classical Chinese economic thoughts the authors set out the analytical framework of market in state to conceptualize the market not as an autonomous self regulating order but part and parcel of a state centered order Zheng and Huang show how state political principles are dominant over market economic principles in

China's economy As the Chinese economy continues to grow and globalize its internal balance will likely have a large impact upon economies across the world

Issues in Indian Public Policies Vinod B. Annigeri, R.S. Deshpande, Ravindra Dholakia, 2018-05-24 This book discusses economic development in general and selected public policy issues with a focus on philosophy Gandhian thoughts and sectoral issues in the Indian context It presents scholarly contributions on growth and development in India with particular emphasis on human development in connection with the economy of India and selected developing countries It brings to the forefront a body of knowledge on philosophy and ethical issues within the domain of public policies relating to development in today's world The book includes contributions from leading economists and covering a range of issues such as the Indian government's current Make in India drive the role of the World Bank managing educational finances development and higher education policy inflation decentralization inequality regional development and linkages between health nutrition and education Accordingly the book not only offers a useful resource for academics

economists and development practitioners but also has important implications for public policymaking **Energy Market and Energy Transition: Dynamics and Prospects** Xunpeng (Roc) Shi, Phoumin Han, Qiang Ji, Farhad
