## **The Dynamics Of Resilient Families Resiliency In Families Series:**

The Dynamics of Resilient Families Hamilton I. McCubbin, 1999-06-04 The Dynamics of Resilient Families is devoted specifically to qualitative family research Encompassing a wide variety of topics this book focuses on the resilient adaptation and creation of meaning for families facing health related crises as well as families adjustments to unexpected life events and major changes The fourth volume in the Resiliency in Families series this book represents a diversity of approaches for collecting and analyzing qualitative data The use of qualitative methods allows novel themes to emerge about central issues in family studies A unique aspect of these qualitative chapters is that the researchers did not intend to study family resiliency Instead they set out to study families in crisis and family processes and the resilient and growth producing meaning of these events to families emerged as central themes Qualitative research can add to the understanding of why families are resilient and how they are able to embrace family crises as manageable rather than insurmountable challenges The use of qualitative methods in the study of families presents a unique opportunity for scholars to question and expand their understanding of family resiliency Social workers clinical practitioners and scholars in ethnic studies family studies nursing public health sociology counseling and health psychology will find The Dynamics of Resilient Families a valuable resource
