The Dynamics Of Russian Politics Putins Reform Of Federal Regional Relations Volume :

The Dynamics of Russian Politics Peter Reddaway, Robert W. Orttung, 2004 This work examines Putin's reforms impact on key areas of Russian life including big business and ethnic relations. It presents a historical context and an overview of the reforms then tracks how Putin's plans were implemented and resisted across each of the seven new federal okrugs. **The Dynamics of Russian Politics** Peter Reddaway, Robert W. Orttung, 2004 Who rules Russia? This question is generated by President Vladimir Putin's most ambitious reform program to date, his attempt since 2000 to reshape the Russian federation, centralize much of the power lost by the Kremlin to the eighty nine regional governors during the 1990s and strengthen his weak grip on Russia's institutions and political elite. In *The Dynamics of Russian Politics* Russian and Western authors from the fields of political science, economics, ethnology, law and journalism examine the reform's impact on key areas of Russian life including big business, law enforcement, corruption, political party development, health care, local government, small business and ethnic relations. Volume I presents the historical context and an overview of the reforms then tracks how Putin's plans were implemented and resisted across each of the seven new federal okrugs or megaregions into which he divided Russia. In particular the authors analyze the goals and contrasting political styles of his seven commissars and how their often concealed struggles with the more independent and determined governors played out. Volume II examines the impact of these reforms on Russia's main political institutions, the increasingly assertive business community and the defense, police and security ministries. It also analyzes how the reforms have affected such key policy areas as local government, health care, political party development, the battle against corruption, small business, ethnic relations and the ongoing Chechen war. Together the two volumes simultaneously reveal that Putin's successes have been much more limited and ambiguous than is widely believed in the West while offering detailed and nuanced answers to the difficult but crucial question Who rules Russia?

Dynamics of Russian Politics Peter Reddaway, Robert W. Orttung, 2004 **The Decline of Regionalism in Putin's Russia** J. Paul Goode, 2011-05-11 This book reassesses Putin's attempt to reverse the decentralization of power that characterised centre-regional relations in the 1990s focusing on regional responses to Putin's federal reforms. It explains the decline of regionalism after 2000 in terms of the dynamics of regional boundaries understood as the juridical boundaries which demarcate a region's territorial extent and its resources, institutional boundaries that sustain regional differences and cultural boundaries that define the ethnic or technocratic principles on which a region could claim legitimate existence. The book questions the conventional wisdom regarding the success of Putin's regime. It shows how regional governors responded not by attempting to deflect the reforms with outright resistance but by mimicking Putin's centralisation of power at the regional level. In turn this facilitated the homogenisation of regional political regimes and regional mergers. The book demonstrates how the reordering of regions advanced sporadically, how pockets of resistance persist and how the potential for the revival of regionalism continues. **Local Politics and Democratization in Russia**
