**The Easter Offensive - Vietnam 1972: Invasion across the DMZ** Albert Grandolini, 2015 On 30 March 1972 the South Vietnamese positions along the Demilitarized Zone DMZ that separated the North from South Vietnam were suddenly shelled by hundreds of heavy guns and multiple rocket launchers Caught in a series of outposts of what was the former McNamara Line the shocked defenders had just enough time to emerge from their bunkers at the end of the barrage before they were attacked by regular North Vietnamese Army divisions supported by hundreds of armored vehicles that crashed through their defensive lines along the border Thus began one of the fiercest campaigns of the Vietnam War but also one of the less well documented because by then most of the American ground forces had been withdrawn Following on from the details of the downsizing of American forces and the setting up of the Vietnamization policy the build up of both the Army of the Republic of Vietnam ARVN in the South and the People's Army of Vietnam PAVN in the North is discussed at length A special emphasis is devoted to the study of the development the North Vietnamese armored corps that would spearhead the coming offensive Consequently the nature of the war changed dramatically evolving from a guerrilla one into a conventional conflict The South Vietnamese resistance shuddered and then crumbled under the communist onslaught putting Hue the ancient imperial capital at risk It was only thanks to US airpower directed by a small group of courageous American advisers which helped to turn the tide Under the command of a new capable commander the South Vietnamese then methodically counterattacked to retake some of the lost ground This culminated in the ferocious street fighting for Quang Tri This first volume describes the combat taking place in the northern part of South Vietnam and uses not only American archives but also Vietnamese sources from both sides The book contains 130 photos five maps and 18 color profiles Asia War following on from our highly successful Africa War series Asia War replicates the same format concise incisive text rare images and high quality color artwork providing fresh accounts of both well known and more esoteric aspects of conflict in this part of the world since 1945

**The Easter Offensive - Vietnam 1972: Tanks in the streets** Albert Grandolini, 2015 On 30 March 1972 while peace negotiations had been dragging on for four years in Paris the North Vietnamese launched a wide scale offensive in order to break the stalemate At that date practically no American ground forces remained in South Vietnam where a limited offensive was expected in the Central Highlands area But nobody imagined the magnitude of the multidivisional armor led onslaught The blow fell first across the Demilitarized Zone DMZ separating the North from South Vietnam see Volume 1 Following from the initial attack in a surprise move three communist divisions with T 54 tanks attacked from their sanctuaries in Cambodia just north of Saigon Their tanks ventured into the streets of An Loc City where they were checked by a desperate and heroic stand by the South Vietnamese soldiers and their American advisers thus saving the capital of South Vietnam Finally the third prong of the North Vietnamese offensive swept across the northern Central Highlands destroying a whole South Vietnamese division The communists then resumed their advance but their tanks

were again entangled in street fighting this time inside Kontum City Furthermore they were harassed by newly developed helicopter gun ships armed with antitank missiles This volume not only details the combat taking place in these two areas but also the organization of both the Army of the Republic of Vietnam ARVN in the South and the People s Army of Vietnam PAVN in the North It particularly emphasizes the transformation of the former from a mainly infantry force into a modern motorized force It also describes how the North Vietnamese learnt the hard way about the use of their tanks The author relies on not only American archives but also on Vietnamese sources from both sides The book contains 130 photos five maps and 18 color profiles Asia War following on from our highly successful Africa War series Asia War replicates the same format concise incisive text rare images and high quality color artwork providing fresh accounts of both well known and more esoteric aspects of conflict in this part of the world since 1945

**Vietnam 1972: Quang Tri** Charles D. Melson,2021-06 During the Cold War Vietnam revealed the limitations of a major power in a peripheral conflict Even so the military forces involved North Vietnamese South Vietnamese American and Allied demonstrated battlefield consistency in conflict that did credit to them all By early 1972 Nixon s policy of Vietnamization was well underway South Vietnamese forces had begun to assume greater military responsibility for defense against the North and US troops were well into their drawdown with some 25 000 personnel still present in the South When North Vietnam launched its massive Easter Offensive against the South in late March 1972 the first invasion effort since the Tet Offensive of 1968 its scale and ferocity caught the US high command off balance The inexperienced South Vietnamese soldiers manning the area south of the Vietnamese Demilitarized Zone in former US bases plus the US Army and Marines Corps advisors and forces present had to counter a massive conventional combined arms invasion The North s offensive took place simultaneously across three fronts Quang Tri Kontum and An Loc In I Corps Tactical Zone the PAVN tanks and infantry quickly captured Quang Tri City and overran the entire province as well as northern Thua Thien However the ARVN forces regrouped along the My Chanh River and backed by US airpower tactical strikes and bomber raids managed to halt the PAVN offensive before retaking the city in a bloody counteroffensive Based on primary sources and published accounts of those who played a direct role in the events this book provides a highly detailed analysis of this key moment in the Vietnam conflict Although the South s forces managed to withstand their greatest trial thus far the North gained valuable territory within South Vietnam from which to launch future offensives and improved its bargaining position at the Paris peace negotiations

**The Easter Offensive Of 1972** Lt. Gen. Ngo Quang Truong,2015-11-06 Includes over 30 maps and illustrations This monograph forms part of the Indochina Monograph series written by senior military personnel from the former Army of the Republic of Vietnam who served against

the northern communist invasion In 1968 a U S presidential election year Communist North Vietnam initiated the Tet Offensive striking at almost all major cities and towns of South Vietnam This general offensive was eventually defeated by the collective efforts of the Republic of Vietnam United States and Free World Assistance forces Four years later in 1972 again a U S presidential election year North Vietnam threw its entire military might behind an invasion to conquer the South This time however South Vietnam had to fight for survival with only logistics and combat support provided by the United States Almost all U S and Free World Military Assistance combat forces had been withdrawn when the first attacks began on 30 April 1972 By all standards the Easter Offensive of 1972 was one of North Vietnam s most significant initiatives during the Vietnam War This all out effort involved eventually in excess of ten divisions on each side and affected the lives of well over a million South Vietnamese people During the eight long months of fierce fighting the Republic of Vietnam Armed Forces put Vietnamization to a severe test During the period of the Easter Offensive I had the privilege of participating in some of its major battles first as IV Corps and then as I Corps commander beginning in early May 1972 I visited many of our combat units as they fought the North Vietnam Army and commanded the RVNAF counteroffensive to retake Quang Tri City My critical analysis of the enemy 1972 Easter Invasion therefore is based almost exclusively on my own personal observations impressions and interviews with Vietnamese who were directly involved Authors Preface Hell in An Loc Quang Thi Lâm, 2009 Three days before Easter last spring the North Vietnamese struck South Vietnam with a fury unknown to the Vietnam war since the Tet offensive four years earlier They poured south across the DMZ smashed into the central highland from Laos crossed the border from Cambodia and with an army of 36 000 men and 100 Russian made tanks raced toward Saigon boasting that they d be in the city by May 19 Ho Chi Minh s birthday From one end of the country to the other bases and villages fell before the savagery of their onslaught By April 5 all that blocked them from Saigon was a ragtag band of 6 800 South Vietnamese regulars and militiamen and a handful of American advisors holed up in An Loc a once prosperous rubber plantation town of 15 000 astride Highway 13 which led to the capital 60 miles to the south In Thi s opinion reporting the victory of An Loc would contradict the U S media s basic premise that the war could not be won because ARVN was a corrupt and ineffective force Subsequent published studies of the conflict provide a wealth of details about the use of U S airpower and the role of the U S advisors but they fail to provide equal coverage to the activities and performance of ARVN units participating in the siege Thi believes that it is time to set the record straight Without denying the tremendous contribution of the U S advisors and pilots to the success of An Loc this book is written primarily to tell the South Vietnamese side of the story and more importantly to render justice to the South Vietnamese soldier who withstood ninety four days of horror and prevailed Publisher s website **Airpower And The 1972 Easter Offensive** Lt.-Col Matthew C. Brand, 2015-11-06 In the spring of 1972 North Vietnam launched a massive three pronged attack into South Vietnam that was eventually repulsed by South Vietnamese forces United States US advisors and massive amounts of American airpower The

problem is determining what factors were key to South Vietnam's successful defense. To that point, this thesis will address the overall effectiveness of US airpower in defeating North Vietnam's attack. This paper first examines the strategic and operational environment surrounding the 1972 offensive, including the role and influence that the leaders of the US, Saigon, Hanoi, China, and the Soviet Union had on the conflict. It then shifts to the three primary tactical battles, describing each in detail from the initial communist successes to their ultimate defeat. Finally, the analysis focuses specifically on airpower's role from the massive strategic deployment that doubled the available assets in theater in just over a month to its operational success striking targets in North Vietnam to its tactical successes on the various battlefields of South Vietnam. Ultimately, this analysis determines that US airpower, with US advisors playing a critical enabling role, was the decisive element in the defeat of North Vietnam's Easter Offensive.

*The Easter Offensive* G. H. Turley, 1989-09-01 Spring 1972: On the heels of the American troop withdrawals came the worst NVA attack yet. Here is the harrowing account of the brave men who fought to keep order when the SVA collapsed.

Army Center of Military History, 2011-03-01 Originally published in 1979, this is a volume in the hard-to-find Indochina Monographs series published by the U.S. Army Center of Military History. Volumes in the series were written by officers who held responsible positions in the Cambodia, Laotian, and South Vietnamese armed forces during the war in Indochina.

*Fury of War* Tom Williams, 2025-06-30 Following on from his successful Book 1, *Doorsteps of Hell*, in this book LtCol Tom Williams USMC Ret continues his involvement in the Vietnam War. After his follow-on assignment in Hawaii, Tom returns to the Vietnam battlefields in 1972 with only two days' notice, now an Aerial Observer. Tom's career takes on increased depth. With the capability of delivering increased combat power from the air, Tom quickly became immersed in the brutality of conventional war during the 1972 Easter Offensive. Finding his equal in the highly skilled US Air Force pilot LtCol Tom Williams (yes, same name), Tom now had the capacity of controlling increased lethal combat power from the air. Quickly assimilating into the crucible of conventional warfare, Tom continues his involvement in the Vietnam War, but this time, unlike the insurgency he experienced before, it was utter devastation, similar to both World Wars I and II, a true cauldron of death and destruction for as far as the eye could see, as evidenced by Tom's never-seen-before aerial handheld intelligence photography, which is featured in this book.

*The Easter Offensive - Vietnam 1972: Tanks in the streets* Albert Grandolini, 2015 **Airpower and the 1972 Spring Invasion**, 1976 *The 1972 Easter Offensive* F. P. Serong, 1974 *Tanks in the Easter Offensive 1972* William E. Hiestand, 2022-02-15 This study explains how the armies of North and South Vietnam, newly equipped with the most modern Soviet and US tanks and weaponry, fought the decisive armored battles of the Easter Offensive. Wearied by years of fighting against Viet Cong guerrillas and North Vietnamese regulars, the United States had almost completely withdrawn its forces from Vietnam by early 1972. Determined

to halt the expansion and improvement of South Vietnamese forces under the U S Vietnamization program North Vietnam launched a major fourteen division attack in March 1972 against the South that became known as the Easter Offensive Hanoi s assault was spearheaded by 1 200 tanks and was counteracted on the opposite side by Saigon s newly equipped armored force using U S medium tanks The result was ferocious fighting between major Cold War era U S and Soviet tanks and mechanized equipment pitting M 48 medium and M 41 light tanks against their T 54 and PT 76 rivals in a variety of combat environments ranging from dense jungle to urban terrain Both sides employed cutting edge weaponry for the first time including the U S TOW and Soviet 9M14 Malyutka wire guided anti tank missiles This volume examines the tanks armored forces and weapons that clashed in this little known campaign in detail using after action reports from the battlefield and other primary sources to analyze the technical and organizational factors that shaped the outcome Despite the ARVN s defensive success in October 1972 North Vietnam massively expanded its armor forces over the next two years while U S support waned This imbalance with key strategic misjudgments by the South Vietnamese President led to the stunning defeat of the South in 1975 when T54 tanks crashed through the fence surrounding the Presidential palace and took Saigon on April 30 1975     *The Easter Offensive* Gerald H. Turley,1985     **Target Saigon 1973-75** Albert Grandolini,2022-09-29 The final volume of Target Saigon examines the final campaigns of the conflict in Vietnam in which the Communist forces engaged in a highly mechanized war of maneuver
