The Counselor Interns Handbook Practicum Or Internship:

The Counselor Intern's Handbook Christopher Faiver, Sheri Eisengart, Ronald Colonna, 2004 This practical and succinct book guides students through each stage of the often complicated internship process offering resources that will prove valuable even after their internships are complete. The text is built on the experience of three established authors known in their fields: Chris Faiver a supervisor to students in the field for over 25 years; Sheri Eisengart a clinician researcher and former student of Faiver; and Ronald Colonna a professional and administrator from an agency that frequently serves as a placement site for interns. Because the text can be used from state to state it also serves as a perfect study guide for certification and state and national licensure examinations. **Internship, Practicum, and Field Placement Handbook** Brian N. Baird, Debra Mollen, 2018-11-19 The Internship Practicum and Field Placement Handbook is a practical guide for interns in the helping professions with real world knowledge of the skills students need through every phase of their practicum field placement or internship. This text expertly guides students through the essential skills needed for beginning work in the field of mental health and outlines skills that will serve students throughout their academic and professional careers. Skills discussed include how to make a great first impression, understanding the process and content of clinical writing, recordkeeping, working with peers and supervisors, understanding diversity, cultivating self care, and promoting safety. Every phase of the internship is discussed chronologically from finding and preparing for placements to concluding relationships with clients and supervisors. Following an evidence and competency based approach, the latest research findings are reviewed from the fields of psychology, social work, and counseling. The Internship Practicum and Field Placement Handbook is an invaluable resource for students, faculty, and supervisors engaged in the exciting, challenging experience of transitioning from academia into clinical training in the field. Free online resources available at www.routledge.com/9781138478701 support the text. **The Internship, Practicum, and Field Placement Handbook** Brian N. Baird, 1999 A unique core text reference for Internships, Practicums, and Field Placements in Psychology, Social Work, Counseling, and related helping disciplines. Acknowledging, anticipating, and addressing the everyday questions, anxieties, fears, and concerns of interns, this practical handbook bridges the gap between academic coursework and the knowledge, skills, and emotional challenges that are found in the real world of the helping professions. Organized both chronologically and topically, the text begins with practical suggestions for how one finds an internship and concludes with how one terminates cases and looks ahead to career options. Along the way, students learn about ethics, diversity, supervision, clinical writing, liability issues, dangerousness, stress, self care, and other essential but often overlooked topics. It draws upon the latest research and information from psychology, psychiatry, social work, counseling, and other helping professions, as well as extensive personal experience, and includes exercises for self exploration and discussion, along with easily removed forms for evaluations, critical information, ethics, and other essential tasks. **The Counseling Practicum and Internship Manual, Second Edition** Shannon Hodges, 2015-11-16
