## The Dancer Upstairs Soundtrack:

**Play it Again: Cover Songs in Popular Music** Professor George Plasketes, 2013-01-28 Covering the musical practice of one artist recording or performing another composer's song has always been an attribute of popular music. In 2009 the internet database Second Hand Songs estimated that there are 40 000 songs with at least one cover version. Some of the more common variations of this appropriationist method of musical quotation include traditional forms such as patriotic anthems, religious hymns such as Amazing Grace, Muzak's instrumental interpretations, Christmas classics and children's songs. Novelty and comedy collections from parodists such as Weird Al Yankovic also align in the cover category as does the larcenous art of sampling and technological variations in dance remixes and mash ups. Film and television soundtracks and advertisers increasingly rely on versions of familiar pop tunes to assist in marketing their narratives and products. The cover phenomenon in popular culture may be viewed as a postmodern manifestation in music as artists revisit, reinterpret and re-examine a significant cross section of musical styles, periods, genres, individual records and other artists and their catalogues of works. The cover complex with its multiple variations, issues, contexts and re-contextualizations comprises an important and rich popular culture text. These re-recordings represent artifacts which embody artistic, social, cultural, historical, commercial, biographical and novel meanings. Through homage, allusion, apprenticeship and parody among other modes, these diverse musical quotations express, preserve and distribute popular culture, popular music and their intersecting historical narratives. Play it Again represents the first collection of critical perspectives on the many facets of cover songs in popular music.

*Double Lives: Film Composers in the Concert Hall* James Wierzbicki, 2019-02-08 Double Lives Film Composers in the Concert Hall is a collection of fifteen essays dealing with iconic film composers who, perhaps to the surprise of many fans of film music, nevertheless maintained lifelong careers as composers for the concert hall. Featured composers include Erich Wolfgang Korngold, Franz Waxman, Miklós Rózsa, Bernard Herrmann, Nino Rota, Leonard Rosenman and Ennio Morricone. Progressing in chronological order, the chapters offer accounts of the various composers' concert hall careers and descriptions of their concert hall styles. Each chapter compares the composer's music for films with his or her music for the concert hall and speculates as to how music in one arena might have affected music in the other. For each composer discussed in the book, complete filmographies and complete works lists are included as appendices. Double Lives Film Composers in the Concert Hall is accessible for scholars, researchers and general readers with an interest in film music and concert music.

*The Routledge Companion to European Cinema* Gábor Gergely, Susan Hayward, 2021-12-29 Presenting new and diverse scholarship, this wide ranging collection of 43 original chapters asks what European cinema tells us about Europe. The book engages with European cinema that attends to questions of European colonial, racialized and gendered power, seeks to decentre Europe itself, not merely its putative centres, and interrogates Europe's various conceptualizations from a variety of viewpoints. It explores the broad, complex and heterogeneous communities produced in and by European films, taking in
