**Disasters, Vulnerability, and Narratives** Kasia Mika, 2018-07-17 This book uses narrative responses to the 2010 Haiti earthquake as a starting point for an analysis of notions of disaster vulnerability reconstruction and recovery The turn to a wide range of literary works enables a composite comparative analysis which encompasses the social political and individual dimensions of the earthquake This book focuses on a vision of an open ended future otherwise than as a threat or fear Mika turns to concepts of hinged chronologies slow healing and remnant dwelling Weaving theory with attentive close readings the book offers an open ended framework for conceptualising post disaster recovery and healing These processes happen at different times and must entail the elimination of compound vulnerabilities that created the disaster in the first place Challenging characterisations of the region as a continuous catastrophe this book works towards a bold vision of Haiti's and the Caribbean's futures The study shows how narratives can extend some of the key concepts within discipline bound approaches to disasters while making an important contribution to the interface between disaster studies postcolonial ecocriticism and Haitian Studies

*Haiti Rising* Martin Munro, 2010 The earthquake that struck Haiti on 12 January 2010 thrust the nation into the public consciousness as never before There is now an unprecedented empathy for and interest in Haiti and a related need for information on Haitian reality beyond the clichés often associated with the nation In particular there is a special interest in the earthquake and the questions of Haiti's future development Haiti Rising responds to this public interest and has three fundamental aims to raise awareness of Haiti its people culture and history to allow some who were in Haiti during the earthquake a chance to testify and to raise funds for artists living and working in Haiti The book brings together more than twenty essays written by some of the most prominent authorities on Haiti and offers insights on the political social and historical contexts as well as the uniquely rich culture of the nation The first part features survivor testimonies moving accounts of the earthquake and its aftermath written by authors and academics Haitian nationals and

foreign visitors The second part presents essays on economics politics society and culture music religion visual art and the ways in which they are interrelated in history and in contemporary life The third section focuses on the history of Haiti from colonial times to the present and shows the ways in which history has shaped Haitian society It shows how colonial class and colour structures have persisted how the revolution has shaped subsequent political cultural and social structures and how the legacy of the Duvalier dictatorship has lingered The final section features contributors who were not in Haiti at the time of the earthquake but who have strong ties to Haiti These authors write about their personal connections to Haiti their reactions to the earthquake and their hopes and recommendations for reconstruction All author royalties from this book will be donated to the Haitian Art Relief Fund a charity working to support the many visual artists in Haiti who have suffered from the earthquake The book stands as a written document of this cataclysmic event and as a monument to those who were in Haiti at the time of the earthquake It is vital reading for anyone who wants to find out about Haiti its remarkable history and culture and its prospects for the future
