Tic-Tac-Toe for the HP 35s Scientific Calculator Frederick Ruland, 2020-07-19 Note The Look Inside on the Kindle version shows much more than the Look Inside on the paperback version This little book uses Tic Tac Toe to demonstrate a few features of the HP 35s scientific calculator While the focus is on the HP 35s many of the concepts discussed can be used with most programmable calculators Equally important to the programming approaches are the proposed techniques for monitoring the moves of multiple players and the demonstration of a strategy for offensive and defense play The HP 35s has 801 indirect storage registers and 26 direct storage registers This book demonstrates the indexed approach to accessing both types of registers Although the HP 35s lacks a computer interface and a graphics display it is reasonably priced at about 55 July 2020 One of the attractions of the HP 35s is its ability to use Reverse Polish Notation RPN Its greatest strength is perhaps its capacity to store custom programs and equations specific to an individual's needs The target audience for this book is the casual or infrequent HP 35s user wishing to expand their knowledge and use of the calculator however the book assumes no prior HP 35s experience Explanations are provided for each command along with the key locations of which there are roughly 150 on the keypad Note This book does not cover every aspect of the HP 35s Therefore it is important to have the HP 35s User's Guide which is available free online <http://support.hp.com/us/en/product/hp-35s-scientific-calculator/3442983/manuals> **Calculator Enhancement for Multivariable Calculus** James A.
