## **The Democratic Horizon Hyperpluralism And The Renewal Of Political Liberalism:**

The Democratic Horizon Alessandro Ferrara, 2014-05-28 Alessandro Ferrara explains what he terms the democratic horizon and reviews the challenges under which democracies must operate

**Political Liberalism, Confucianism, and the Future of Democracy in East Asia** Zhuoyao Li, 2020-04-17 This book contributes to both the internal debate in liberalism and the application of political liberalism to the process of democratization in East Asia Beyond John Rawls original intention to limit the scope of political liberalism to only existing and well ordered liberal democracies political liberalism has the potential to inspire and contribute to democratic establishment and maintenance in East Asia Specifically the book has two main objectives First it will demonstrate that political liberalism offers the most promising vision for liberal democracy and it can be defended against contemporary perfectionist objections Second it will show that perfectionist approaches to political Confucianism suffer from practical and theoretical difficulties Instead an alternative model of democracy inspired by political liberalism will be explored in order to achieve a multivariate structure for citizens to come to terms with democracy in their own ways to support a neutral state that ensures the establishment and stability of democracy and to maintain an active public role for Confucianism to prevent it from being banished to the private sphere This model represents a more promising future for democracy in East Asia

**Migration and the Crisis of Democracy in Contemporary Europe** Christoph M. Michael, 2021-01-12 This innovative and thought provoking study puts forth a compelling analysis of the constitutive nexus at the heart of the European refugee conundrum It maps and historically contextualises some of the distinctive challenges that pervasive ethnic and cultural pluralism present to real politics as on the level of political theorizing By systematically integrating hitherto insufficiently linked research perspectives in a novel way it lays open a number of paradoxical constellations and regressive tendencies in contemporary European democracy It thereby redirects attention to the ways in which liberal thought and liberal democratic institutions shape interact with and may even provide justification for illiberal and exclusionary practices This book thus makes an important contribution to the analysis of post migrant realities in Europe and the ways in which they are defined by imperial legacies punitive migration regimes the culturalization of mainstream politics and the discursive construction of a European Other

Legitimation by Constitution Alessandro Ferrara, Frank I. Michelman, 2021 Legitimation by constitution is a phrase coined by Michelman and Ferrara to represent an idea in Rawlsian political liberalism of reliance on a dualist democracy ground level laws are subject to the constraints of a legal constitution that all citizens across the political spectrum can accept as a framework for their collective politics

**Sovereignty Across Generations** Alessandro Ferrara, 2023-02-16 Every cohort of voters may dream of being the people under the sway of serial visions of sovereignty or understand itself more modestly as co author of a constitutional project in a cross generational sequence rooted in the past and extending into the future Sovereignty Across Generations offers a theory of democratic sovereignty and constituent power grounded in John Rawls s political liberalism Neither

exegetic nor abstractly analytic this book assumes that political liberalism is broader than Political Liberalism In answering the question How is it possible for there to exist over time a just and stable society of free and equal citizens who remain profoundly divided by reasonable religious philosophical and moral doctrines the paradigm implicit in Political Liberalism enables us to address facets of that question that Rawls sidelined in the context of his time Following populist threats to democracy which were still latent in 1993 this book responds to the urgency of clarifying the proper relation of the people as transgenerational author of the constitution to its pro tempore living segment in its capacity as electorate and as co author of the constitution An explanation of that relation brings constituent power into the picture and unfolds in seven steps that form the conceptual backbone of this book By taking new steps in updating and revisiting political liberalism this book reconstructs Rawls s implicit view of constituent power beyond the pages dedicated to it in Political Liberalism and brings that view into conversation with major constitutional theories of the twentieth century This book is a must read for all those interested in the fields of politics philosophy and constitutional law

#### **Rousseau and Critical Theory** Alessandro

Ferrara,2017-09-15 In Rousseau and Critical Theory Alessandro Ferrara argues that an implicit normative understanding of the authenticity of an identity brings unity to Rousseau s multifarious lifework and contains important teachings for

contemporary Critical Theory views of self constitution and political philosophy

#### **The Making of a Postsecular Society**

Massimo Rosati,2016-03-03 Drawing on the thought of Durkheim this volume focuses on societal changes at the symbolic level to develop a new conceptualisation of the emergence of postsecular societies Neo Durkheimian categories are applied to the case of Turkey which in recent years has shifted from a strong Republican and Kemalist view of secularism to a more Anglo Saxon perspective Turkish society thus constitutes an interesting case that blurs modernist distinctions between the secular and the religious and which could be described as postsecular Presenting three symbolic case studies the enduring image of the founder of the Republic Atat rk the contested site of Ayasofia and the remembering and commemoration of the murdered journalist Hrant Dink The Making of a Postsecular Society analyses the cultural relationship that the modern Republic has always had with Europe considering the possible implications of the Turkish model of secularism for a specifically European self understanding of modernity Based on a rigorous construction of theoretical categories and on a close scrutiny of the common challenges confronting Europe and its Turkish neighbour long considered other with regard to the accommodation of religious difference this book sheds light on the possibilities for Europe to find new ways of arranging the relationship between the secular and the religious As such it will appeal to scholars of social theory the sociology of religion secularisation and religious difference and social change

*El horizonte democrático* Alessandro Ferrara,2014

*Political Liberalism and Plurinational Democracies* Ferran Requejo Coll,Miquel Caminal i Badia,2011 The current context of developed societies is characterised by a number of phenomena the most significant of which are processes of economic globalisation information technologies increasing multiculturalism and the emergence of cases of national pluralism which

require full political accommodation both within democracies and in the international sphere The book examines the current state of affairs concerning the political recognition and constitutional accommodation of national pluralism in liberal democracies in the global era of the 21st century The aim of this volume is to reveal the normative analytical and institutional shortcomings of liberal democracies in multinational contexts and to offer alternatives that theoretically refine and practically improve the recognition and political accommodation of national pluralism within the democratic polity Through a series of analyses linked to the development of political liberalism in contemporary states the contributors analyse the direct impact on the way that democracies have treated and continue to treat national pluralism in modern day societies Bringing together leading scholars in the field to explore the different debates and approaches to this important issue this volume will interest researchers and students of nationalism federalism and multiculturalism as well as political actors and policy makers with a particular interest in the management of diversity in present day liberal democracies
