**The Reflective Educator's Guide to Classroom Research** Nancy Fichtman Dana, Diane Yendol-Hoppey, 2009 Transform your teaching practice with this powerful approach to professional growth. Teacher inquiry can play a critical role in professional staff development across all grade levels and subject areas. Now this updated bestseller offers both an in-depth examination of teacher inquiry as well as step-by-step instructions giving prospective and practicing teachers everything they need to engage in this vital process. Featuring helpful exercises in every chapter, this how-to guide to action research takes teachers through each stage of the process: formulating a research question, collaborating with others, collecting data, analyzing data, writing, and presenting classroom research and assessing the quality of the work. The authors also demonstrate the relationship between teacher inquiry and differentiated instruction, data-driven decision making, progress monitoring, and Response to Intervention. This revised edition includes an updated section about professional learning communities, the latest data collection methods, including digital photos, video, blogging, and assessment measures, simplified models for documenting inquiry results, added examples from middle and high school settings, a new chapter on assessing inquiry projects. By learning to make the most of this essential tool, teachers can enhance their instruction and contribute significantly to improved student achievement.

*Developing Self-regulation of Learning and Teaching Skills Among Teacher Candidates* Héfer Bembenutty, Marie C. White, Miriam R. Vélez, 2015-06-09 During the last several decades, self-regulation of learning has permeated all areas of learning and development, including teaching preparation programs. Self-regulatory competences are essential for successful academic achievement and performance. This book is written for teacher candidates to believe that if they heard a call to

teach they can see in each paragraph of this book that they can do it Teacher candidates reading this book will find themselves vicariously portrayed in the journey of the four teacher candidates described in this book They can empathize with their struggles but will also find assurance that through self regulation their own journeys and dreams could have great outcomes This book is also written for teacher educators in teaching education programs so that they would realize that by transforming their curriculum in light of new findings on self regulation they could facilitate the training process of teacher candidates under their supervision and that self regulation of learning and teaching matters for teacher candidates Drawing on a rich body of research and theory on self regulation of learning Bembenutty White and V lez present compelling case studies indicating that the capability of teacher candidates to self regulate their attainment of educational goals depends on their exposure to self regulated teacher educators especially as they model scaffold and mentor in classroom settings This important text gives numerous examples of how teacher educators can become role models and agents for self regulatory change and it will be an invaluable resource for courses in education psychology and human development Barry J Zimmerman Professor Emeritus Graduate Center The City University of New York In an effective blend of theory and case histories Bembenutty White and V lez provide valuable information and advice for prospective teachers and teacher educators Their focus on help seeking is critical given the array of resources available to overcome early difficulties especially for teachers with significant challenges Also important is helping them understand the role of delay of gratification in the face of expanding sources of distraction Stuart A Karabenick Research Professor University of Michigan This book builds a really strong case for the importance of self regulation in teacher education Moreover it tells a fascinating story of educational success against the odds made possible by personal stamina as well as contextual support Both teacher students and teacher educators around the world will find this book a wonderful inspiration Ivar Br ten Professor University of Oslo Norway This is a practical book which provides a compelling narrative with page after page on teacher self regulatory functioning I recommend this book for teacher preparation programs and I will definitely share it with many of my students and colleagues Anastasia Kitsantas Professor George Mason University
