James K. A. Smith

The Disenchantment Of Secular Discourse:

The Disenchantment of Secular Discourse Steven D. Smith, 2010-06 This book presses us to look harder at closely held beliefs and to question deeply rooted premises and commitments with which we are perhaps too comfortable Richard W Garnett Notre Dame Law School **Law and Religion in Africa** Pieter Coertzen, M Christiaan Green, Len Hansen, 2015-05-01 In our time the study of law and religion is emerging as a wide ranging and vital academic discipline with increasingly urgent implications for society at large Lying at the intersection of a variety of other disciplines law theology religious studies political science sociology and anthropology to name only the most obvious the field of law and religion is generating a burgeoning volume of interdisciplinary and trans disciplinary research and study The current volume is proof of this The discussion of the relationship between law and religion as seen from a variety of perspectives in Africa underscores the critical importance of the issues involved in the everyday life of all citizens It is accordingly vital for governments to take note of the scholarly results that are produced We hope that this volume will contribute to this aim The Oxford Handbook of Biblical Monsters Associate Professor of Biblical Studies and Academic Dean Brandon R Grafius, Brandon R.

Grafius, Adjunct Instructor in New and World Religions John W Morehead, John W. Morehead, 2025 The Oxford Handbook of Biblical Monsters brings together the work of world renowned scholars in Bible theology religion and cultural studies to explore the monsters that rampage through the biblical text Essays provide in depth analysis of the Ancient Near Eastern background of these creatures explore how they have continued to live on after the biblical text and discuss how they remain impactful through art and literature today The chapters not only study where monsters came from but continually focus on what they mean and how these meanings are generated These chapters work to bridge the perspectives of traditional scholarship and more postmodern ideas of monsters as cultural and rhetorical constructions There are chapters on the Ghosts of Mesopotamia Leviathan and the Giants but also on the Monstrous Jew in the Gospels and the Monstrosity of the Crucifixion They serve both as foundational pieces of research for scholars looking to familiarize themselves with monsters and discourses of monstrosity but also as creative and provocative examinations of how these monsters generate meaning While working to summarize the research that has been done on biblical monsters up to the present day this Handbook points the way forward towards new and exciting studies in unnatural creatures and the rhetoric of horror Reason, Revelation, and the Civic Order Carson Holloway, 2014-03-14 While the dominant approaches to the current study of political philosophy are various with some friendlier to religious belief than others almost all place constraints on the philosophic and political role of revelation Mainstream secular political theorists do not entirely disregard religion But to the extent that they pay attention their treatment of religious belief is seen more as a political or philosophic problem to be addressed rather than as a positive body of thought from which we might derive important insights about the nature of politics and the truth of the human condition In a one of a kind collection DeHart and Holloway bring together leading scholars from various fields

including political science philosophy and theology to challenge the prevailing orthodoxy and to demonstrate the role that religion can and does play in political life Contributing authors include such important thinkers as Peter Augustine Lawler Robert C Koons J Budziszewski Francis J Beckwith and James Stoner Secularism in Question Ari Joskowicz,Ethan B. Katz,2015-06-30 For much of the twentieth century most religious and secular Jewish thinkers believed that they were witnessing a steady ongoing movement toward secularization Toward the end of the century however as scholars and pundits began to speak of the global resurgence of religion the normalization of secularism could no longer be considered inevitable Recent decades have seen the strengthening of Orthodox movements in the United States and in Israel religious Zionism has grown and radically changed since the 1960s and new and vibrant nondenominational Jewish movements have emerged Secularism in Question examines the ways these contemporary revivals of religion prompt a reconsideration of many issues concerning Jews and Judaism from the early modern era to the present Bringing together scholars of history religion philosophy and literature this volume illustrates how the categories of religious and secular have frequently proven far more permeable than fixed The contributors challenge the problematic assumptions about the development of secularism that emerge from Protestant European and American perspectives and demonstrate that global Jewish experiences necessitate a reappraisal of conventional narratives of secularism Ultimately Secularism in Question calls for rethinking the very terms that animate many of the most contentious debates in contemporary Jewish life and far beyond Contributors Michal Ben Horin Aryeh Edrei Jonathan Mark Gribetz Ari Joskowicz Ethan B Katz Eva Lezzi Vivian Liska Rachel Manekin David Myers Amnon Raz Krakotzkin Andrea Schatz Christophe Schulte Daniel B Schwartz Galili Shahar Scott Ury The Dignity of Commerce Nathan Oman,2016 The Dignity of Commerce is a rigorous and novel exploration of moral justification of contract law through how it fosters well functioning markets Nathan B Oman demonstrates how contract law deals overwhelmingly with the matters of commercial exchange and how commerce in turn breeds habits of mind or virtues that support a liberal society He also shows how markets provide a framework for peaceful cooperation across the fault lines of race culture religion and politics that outdo even democratic political institutions The Dignity of Commerce is ambitious in its aims and its conclusions and the implications are powerful It is sure to elicit a serious discussion at the very heart of one of the most central areas of legal studies and Nathan B Oman has provided a clear engaging and comprehensive vehicle to get the discussion started **U.C. Davis Law Review** University of California, Davis. School of Law,2014 **Critical Theology and the Challenge of Jürgen Habermas** Marc Philippe Lalonde,1999 In answer to this breach Lalonde sets out to design a non theological approach to understanding the religious by expanding the form of critical theory and the content of religious philosophy **Narratives of Disenchantment and Secularization** Robert A. Yelle,Lorenz Trein,2020-09-17 What does it really mean to be modern The contributors to this collection offer critical attempts both to re read Max Weber s historical idea of disenchantment and to develop further his understanding of what the contested relationship between modernity and

religion represents The approach is distinctive because it focuses on disenchantment as key to understanding those aspects of modern society and culture that Weber diagnosed This is in opposition to approaches that focus on secularization narrowly construed as the rise of secularism or the divide between religion and politics and that then conflate this with modernization as a whole Other novel contributions are discussions of temporality meaning the sense of time or of historical change that posits a separation between an ostensibly secular modernity and its religious past and of the manner in which such a sense of time is constructed and disseminated through narratives that themselves may resemble religious myths It reflects the idea that disenchantment is a narrative with either Enlightenment Romantic or Christian roots thereby developing a conversation between critical studies in the field of secularism such as those of Talal Asad and Gil Anidjar and conceptual history approaches to secularization and modernity such as those of Karl L with and Reinhart Koselleck and in the process creates something that is more than merely the sum of its parts *Secularism and Indian Polity* Bidyut Chakrabarty,1990 **UC**

Irvine Law Review ,2011 **American Evangelicalism** James Davison Hunter,1983 Religious Faith, Human Identity

Eric J. Lott,2005 Judaism and Ecology Hava Tirosh-Samuelson,2002 This volume intends to contribute to the nascent discourse on Judaism and ecology by clarifying diverse conceptions of nature in Jewish thought and by using the insights of Judaism to formulate a constructive Jewish theology of nature *After Modernity?* James K. A. Smith,2008 The conservative radicalismrepresented in these contributions will resonate with a broad audience of scholars and citizens who seek to put faith into action
