Choosing and Using Audio and Music Software

Mike Collins, 2004-03-08 This comprehensive reference features all the major audio software: SONAR XL, Cubase SX, Logic Audio, Platinum Digital Performer, Nuendo, Pro Tools, Peak, Spark XL, SonicWorx, Audition, Cool Edit Pro, WaveLab, Sound Forge. If you need advice on which systems to purchase which are most suitable for particular projects and on moving between platforms mid-project, this book should be your one-stop reference. Mike Collins is a trainer and consultant who has been tackling these issues for years and his expert advice will save you time and money. Each section covers a specific system providing a handy overview of its key features and benefits including help with setup. Hints and Tips appear throughout these sections addressing issues such as how to record drum loops using a virtual drum machine, recording basslines and keyboard pads using virtual synthesizers and adding strings, brass or other instruments using virtual samplers. Mike then illustrates how to convert these MIDI recordings into audio tracks to mix alongside vocals, guitars and any other real instruments. The many short tutorials provide both a source of comparison and means to get up to speed fast on any given software. Mike Collins is a music technology consultant and writer who has been making music in London's recording studios variously as a MIDI programmer, session musician, recording engineer, producer and arranger since 1981. He offers freelance Pro Tools engineering consultancy, troubleshooting and personal tuition as well as presenting seminars and lectures on related music technology and audio recording topics. Mike has written over 500 articles for magazines such as Macworld UK, Pro Sound News, Europe Sound on Sound and AudioMedia, and for Electronic Musician and MIX in the USA. Mike's wide-ranging career and experience enables him to bring excellent insight from all sides into his writing, from technical detail to creative expression. Starting out as a musician and club DJ in the 1970s, Mike moved into professional recording in the 1980s initially as a Songwriter Producer for EMI Records. Later he worked as a Songwriter for Chappell Music, as a Film Sound Consultant for Dolby Labs, as a Music Producer for TV recordings and as Senior Recording Engineer and Music Technology Specialist at Yamaha's London R&D Studio.
