The Duff Cooper Diaries:

The Duff Cooper Diaries Duff Cooper, John Julius Norwich, 2006 The long awaited and highly revealing diaries of the politician diplomat and socialite married to Lady Diana Cooper Duff Cooper was a first rate witness of just about every significant event from 1914 to 1950 His diary includes some magnificent set pieces as a young soldier at the end of WWI as a politician during the General Strike of 1926 as King Edward VIII's friend at the time of the Abdication and from Paris after the liberation in 1944 when he became British ambassador If Duff Cooper's name has dimmed in the 50 years since his death publication of these diaries will bring him to the fore once again His family have long resisted publication indeed Duff Cooper's nephew the publisher Rupert Hart Davis was so shocked by the sexual revelations that he suggested to John Julius Norwich that it might be best for all concerned if they were burnt Now superbly edited by John Julius Norwich who familial link ensures all kinds of additional information as footnotes these diaries join the ranks **The Great War** Isobel

Charman, 2014-07-31 During the First World War three quarters of a million British people died a figure so huge that it feels impossible to give it a human context Consequently we struggle to truly grasp the impact this devastating conflict must have had on people's day to day lives We resort to looking at the war from a distance viewing its events in terms of their political or military significance **The Great War The People's Story** is different Like the all star ITV series it accompanies it immerses the reader in the everyday experiences of real people who lived through the war Using letters diaries and memoirs many of which have never previously been published Isobel Charman has painstakingly reconstructed the lives of people such as separated newly weds Alan and Dorothy Lloyd plucky enlisted factory worker Reg Evans and proudly independent suffragist Kate Parry Frye A century on they here tell their stories in their own words offering a uniquely personal account of the conflict **The Great War The People's Story** is both a meticulously researched piece of narrative history and a deeply moving remembrance of the extraordinary acts of extremely ordinary people *Britain and the Defeated French* Peter

Mangold, 2010-11-30 The four years between the military defeat of France by Nazi Germany and D Day were vital dramatic and eventful years in Anglo French relations These years saw the first armed clashes between France and Britain since the Napoleonic Wars including the infamous Royal Navy attack on the French fleet at Mers el Kebir They also saw a curious relationship developing between Britain and Vichy France Vichy was at once a hostile power under German domination and at the same time a porous regime through which British influence on its politics attitudes towards the Resistance and the transit of British soldiers and airmen through its territory en route to Spain could flow quite freely Britain had an ambivalent attitude towards Vichy obviously adversarial but also pragmatic The history of Vichy France is often viewed as a sideshow in the overall context of World War II However Peter Mangold here shows that the Vichy attitude towards the allies especially the British was ambivalent and complex His absorbing and up to date account based on original historical research highlights the conflicts within the Vichy regime and the ways in which contacts and connections with de Gaulle in London and the

British Government were maintained This exciting and fast paced book brings to life the major characters in the story not only Churchill and de Gaulle but also Macmillan Petain and Leclerc In this book Mangold deftly reassesses the complex international wartime chessboard and in the process reveals a little known aspect of the World War II story *The Man Who Took the Rap* Peter John Dye,2018-10-15 This is the first biography of Sir Robert Brooke Popham a key figure in the early development of airpower whose significant and varied achievements have been overlooked because of his subsequent involvement in the fall of Singapore It highlights Brooke Popham s role in developing the first modern military logistic system the creation of the Royal Air Force Staff College and the organizational arrangements that underpinned Fighter Command s success in the Battle of Britain Peter Dye challenges longstanding views about performance as Commander in Chief Far East and based on new evidence offers a more nuanced narrative that sheds light on British and Allied preparations for the Pacific War inter service relations and the reasons for the disastrous loss of air and naval superiority that followed the Japanese attack The Man Who Took the Rap highlights the misguided attempts at deterrence in the absence of a coordinated information campaign and the unprecedented security lapse that betrayed the parlous state of the Allied defenses

Continental Drift Benjamin Grob-Fitzgibbon,2016-05-26 In the aftermath of the Second World War Churchill sought to lead Europe into an integrated union but just over seventy years later Britain is poised to vote on leaving the EU Benjamin Grob Fitzgibbon here recounts the fascinating history of Britain s uneasy relationship with the European continent since the end of the war He shows how British views of the United Kingdom s place within Europe cannot be understood outside of the context of decolonization the Cold War and the Anglo American relationship At the end of the Second World War Britons viewed themselves both as the leaders of a great empire and as the natural centre of Europe With the decline of the British Empire and the formation of the European Economic Community however Britons developed a Euroscepticism that was inseparable from a post imperial nostalgia Britain had evolved from an island of imperial Europeans to one of post imperial Eurosceptics **Country Life** ,2005 **The Spectator** ,1873 A weekly review of politics literature theology and art
