The Cultural Politics of European Prostitution Reform Greggor Mattson, 2016-01-28 The Cultural Politics of European Prostitution Reform traces case studies of four European Union countries to reveal the way anxieties over globalization translates into policies to recognize sex workers in some countries punish prostitutes clients in others and protect victims of human trafficking in them all

Emotional Histories in the Fight to End Prostitution Michele Renée Greer, 2022-10-06 This book sheds new light on the ongoing fight to end prostitution through a historical study of its emotional communities An issue that has long been the subject of much debate amongst feminists governments and communities alike the history of the fight to end prostitution has an important bearing on feminist politics today This book identifies key abolitionist emotional communities tracing their origins interactions and evolutions with various historical and contemporary emotional styles In doing so Emotional Histories in the Fight to End Prostitution highlights a more nuanced view of the movement's history From Moral Liberals in 19th century Britain to the American anti pornography movement and Swedish Nordic Model Emotional Histories in the Fight to End Prostitution shows how emotional styles and practices have influenced the evolution of the fight against prostitution in Britain the United States and Western Europe From the fear of sin to maternal compassion and survivor shame and loss Michele Greer historicizes emotions and studies them as dynamic forms of situated knowledge In doing so she sheds light on how women's lived experiences have been transformed and politicized and raises important questions around how feminist emotions in social protest can not only challenge but unknowingly defend existing socio political conventions and inequalities Highlighting the links between past and present forms of abolitionism it shows that this connection is more complex and far reaching than currently assumed and offers new perspectives on the history of emotions

Sexual Politics in Contemporary Europe Sharron FitzGerald, May-Len Skilbrei, 2022-02-01 The legal regulation of gender and sexuality has undergone dramatic changes throughout Europe in the last 40 years and this has shaped what it means to be a European citizen Drawing on a range of interdisciplinary research this book uses the discourses around current European sexual politics as an entry point to interrogate how and with what effect the EU and its Member States harness issues of gender and sexuality to support issues of higher political importance It takes recent and ongoing political debates and legislative changes around prostitution and sexual assault as a focus Using four national case studies Poland Germany Sweden and Italy it illuminates how the EU's desire for increased harmonisation across the Union around gender and sexuality norms and values operates differently and with specific effects across Member States The book's structure provides a detailed map of how and why contemporary European sexual politics is changing and how this contributes to establishing European norms and values in developments in law and policy around prostitution and sexual assault By examining how and why the EU and its Member States implement their policies in these two policy areas we can begin to illuminate how contemporary European sexual politics serve some groups interests while marginalizing Others

European Values François Foret, Oriane Calligaro, 2018-06-14 Redefinitions of EU borders enlargements Brexit geopolitical challenges conflicts migrations terrorism environmental risks and the economic and financial crises have triggered debates on the common values that hold European countries and citizens together justify public action and ensure the sustainability of European governance This book discusses the genesis of and increasing references to European values their appropriation by diverse groups of actors and their impact on public action It argues that European values are a broad and flexible symbolic repertoire instrumental to serving diverging ends and a resource for both negotiation and conflicts Looking at the broader picture the book reflects on the role of values in the institutionalization of the EU as a political order and paves the way to an assessment of its singularity in comparison with other polities across time and space This text will be of key interest to scholars students and practitioners in EU politics comparative politics IR public policy sociology and cultural studies

Security Meets Gender Equality in the EU Lucrecia Rubio Grundell, 2022-12-09 This book explores the triangular dynamics of securitisation and desecuritisation that underpin the EU's approach to trafficking in women for sexual exploitation That is the progressive securitisation of trafficking in women for sexual exploitation within the EU's anti trafficking policies and the existence of two distinct and competing approaches that coexist among feminist struggles against such trend and that largely follow the two opposing views that structure feminist debates on prostitution a neo abolitionist approach on the one hand that is increasingly defended from within EU institutions and has therefore become increasingly entangled with the securitisation of trafficking in women and a sex work approach on the other hand that has been largely relegated to the domains of academia and civil society As such this book addresses the intersection of security and feminist neo abolitionism within the EU's anti trafficking policies as well as the de securitising potential of the anti trafficking advocacy of both neo abolitionist and sex worker organisations operating at EU level This book is unique in that it unprecedentedly brings together three bodies of literature that rarely interact Critical Security Studies EU Gender Studies and the feminist literature on prostitution and trafficking in women and demonstrates their fruitful interaction in an extensive empirical analysis of the EU's internal security violence against women and anti trafficking policies

Towards a Southern Approach to Sex Work Habiba Sultana, 2020-12-29 This book delves into this almost uncharted territory documenting the lived experiences of sex workers in Bangladesh considering the complex realities of their day to day lives and the ways they negotiate their working conditions and relationships Despite being the most common form of female deviance and criminality globally we know very little about sex work in Asia and the global south Drawing on feminist frameworks it shows that the experiences of sex workers vary widely depending on the ways they enter the sex trade their modes of operation and relationships with significant others Towards a Southern Approach to Sex Work contributes to feminist scholarship on sex work by offering a much needed southern perspective drawing on culturally specific data It argues that the lived experience of sex workers comprises both victimhood and agency deception and resilience and that it is

the management of these relationships that enable sex workers to avoid social marginalization and alienation. An accessible and compelling read, this will appeal to students and scholars of criminology, sociology, gender studies, South Asian studies, cultural studies, social theory, and policy makers. In addition, it will engage all those interested in learning more about how the sex trade operates in Bangladesh.

Arrival Infrastructures Bruno Meeus, Karel Arnaut, Bas van Heur, 2018-06-16. This volume introduces a strategic interdisciplinary research agenda on arrival infrastructures. Arrival infrastructures are those parts of the urban fabric within which newcomers become entangled on arrival and where their future local or translocal social mobilities are produced as much as negotiated. Challenging the dominance of national normativities, temporalities, and geographies of arrival, the authors scrutinize the position and potential of cities as transnationally embedded places of arrival. Critically interrogating conceptions of migrant arrival as oriented towards settlement and integration, the volume directs attention to much more diverse migration trajectories that shape our cities today. Each chapter examines how migrants, street-level bureaucrats, local residents, and civil society actors build with the resources they have at hand the infrastructures that accommodate, channel, and govern arrival.

The Politics of Prostitution Joyce Outshoorn, 2004-01-08. The most effective way to deal with prostitution has always been hotly debated by governments and women's movements alike. Feminists want it abolished or regulated as sex work; governments have to safeguard public health and order. This book, first published in 2004, shows how women's movements in Western Europe, North America, and Australia have affected politics on prostitution and trafficking of women since the 1970s, asking what made them successful in some countries but a failure in others. It also assesses whether government institutions to advance the status of women, so-called women's policy agencies, have played a key role in achieving policy outcomes favourable to movement demands. Written by an international team of experts and based on original sources, all chapters follow the same framework to ensure comparability. The final chapter offers an overall comparison, identifying what makes women's movements successful and women's agencies effective, presenting the case for state feminism.

Regulating Prostitution Jane Scoular, 2010. Following Matthews' 2005 recent examination of prostitution's changing regulatory framework, we offer a critical account of the move from enforcement/punishment to multi-agency regulatory responses as, in part, a consequence of new forms of governance. We focus on the increasing salience of exiting a move favoured by Matthews as signalling a renewed welfare approach, but one which, when viewed in the wider context of progressive governance, offers insight into New Labour's attempt to increase social control under the rhetoric of inclusion through techniques of risk and responsibilization. By exploring the moral and political components of these techniques, we demonstrate how they operate to privilege and exclude certain forms of citizenship, augmenting the on-going hegemonic moral and political regulation of sex.

workers **Feminism, Prostitution and the State** Eilis Ward, Gillian Wylie, 2017-02-17 This edited volume focuses on charting the rise of neo abolitionism and offering a critique of the idea its logics and consequences A model of state policy which aims to abolish prostitution through legislation Neo abolitionism criminalises the buyer of sex but not the seller It is currently law in Sweden and other Nordic states and dominates the framing of policy debates in many other Western liberal contexts Pressure for adoption of this policy has come from radical feminists who understand prostitution and sex trafficking as a form of violence against women This volume argues that this convergence between radical feminism and state s interests arises from the emergence of on the one hand governance feminism which seeks to have its ideals implemented through top down sovereigntist means and on the other hand state s interests in legitimising stricter border controls and law enforcement responses in relation to transnational organised criminality illegal migration and security Based around a series of country case studies each chapter will explore the politics surrounding the emergence of neo abolitionism and its trajectory through those polities whether the paradigm has been adopted rejected or is still under debate The volume will be of great interest to students and scholars of Social and Public Policy Gender and Women s Studies Politics and International Relations and Critical Legal Studies Criminology Uneasy Virtue Barbara Meil Hobson, 1990-03-15 Barbara M Hobson makes a compelling case for the reform of prostitution policy in *Uneasy Virtue* This volume demonstrates an effective analytical approach to understanding public policy and its impact on prostitution policy *Uneasy Virtue* proves particularly relevant today as right wing groups begin to guide discourse and influence policy around reproductive rights sexuality and the future of gender equality As Hobson proposes the reform of prostitution policy must be viewed in the broader context of the political and economic struggles to emancipate women and thereby create a more rational society Samuel Suchowlecky
