The Cydonia Codex Reflections From Mars:

The Cydonia Codex George J. Haas, William R. Saunders, 2005 The result of ten years of study and analysis of NASA photographs of the Face on Mars and its surrounding complex The Cydonia Codex provides evidence for a terrestrial connection between Cydonia and Mesoamerica Provided by publisher *The Martian Codex* George J. Haas, William R. Saunders, 2009-09-22 In this provocative book The Cydonia Codex authors George J Haas and William R Saunders use archaeological research discoveries and photographs from NASA and other space programs to document the uncanny similarities between Martian and now extinct Earth cultures The Martian Codex begins with a review of the thirty year history of documenting the famous Face on Mars landform from NASA's first photographs in 1976 to the Mars Reconnaissance Orbiter's HiRISE shots in 2007 Detailed analysis shows it as a split faced structure that precisely resembles a set of masks from a temple in Cerros Mexico Part two provides additional examples of two faced and composite structures all over the red planet Haas and Saunders explore a series of recurring motifs by providing side by side views of the Martian geoglyphs with their terrestrial pre Columbian counterparts The results substantiate a commonality between two worlds in that both depict specific gods and characters from the creation mythology of the Mayan people as recorded in the sacred Popol Vuh This fact based book represents the most persuasive argument yet that extraterrestrials may indeed have appeared on Earth during an earlier era

The Cydonia Codex George J. Haas, William R. Saunders, 2003 Analysing NASA photographs of the planet Mars Haas and Saunders offer unprecedented evidence 300 images and illustrations of monumental edifices from a prehistoric Martian civilisation which parallel the sculpture and mythology of ancient cultures from Mesoamerica Asia Mesopotamia and Egypt The implication is staggering Earth's history and mankind's origins could be very different than previously believed

The Great Architects of Mars George J. Haas, 2025-01-07 Explores a wide variety of anomalous structures on Mars's surface that display a high degree of geometric and pictographic design Examines sites such as the Elysium pyramid famously described by Carl Sagan and city complexes in the Nepenthes Mensae and Atlantis Chaos regions Argues that Mayan creation stories of a Star War and Sumerian myths of the Anunnaki provide ancient evidence for the existence of a Martian culture Exploring evidence of a lost Martian civilization and its contact with Earth investigator George Haas examines a wide variety of anomalous structures and geoglyphs on Mars's surface that display a high degree of geometric and symbolic design that reveal an ancient bond between Earth and Mars He takes a closer look at Carl Sagan's famous pyramid of Elysium including high resolution images released after Sagan's death Investigating a pair of city complexes in the Nepenthes Mensae region of the Red Planet Haas shows how the settlements include geometric formations of a five sided star and a hexagonal pyramid along with geoglyphic formations representing a dove a killer whale and a bat Examining the Libya Montes region he reveals a keyhole shaped formation identical in design to ancient tombs built in Japan In the Atlantis Chaos region he investigates the remains of an ancient city nestled along a dead lake an urban

like array of gridded broken walls and shattered foundations He then explores a detailed parrot shaped geoglyph in the large impact crater known as Argyre Basin that four veterinarians found to possess 22 points of anatomical correctness with terrestrial parrots Providing an ancient Mesoamerican connection to the civilizations of Mars Haas looks at a lesser known Mayan creation story about a Star War that occurred 800 000 years ago He reveals parallels between this story and ancient Sumerian stories of the Anunnaki occupation of Earth and Mars as documented by Zecharia Sitchin Haas also shows how there is a direct correlation between the ruins on Mars and the art and architecture of Mesoamerican cultures providing clear evidence of a long disappeared Martian civilization that we are only now rediscovering **The Cosmic War** Joseph P. Farrell, 2020-12-05 There is ample evidence across our solar system of cataclysmic and catastrophic destruction events The asteroid belt for example may be the remains of an exploded planet The known planets are scarred from incredible impacts and teeter in their orbits due to causes heretofore inadequately explained Rejecting the naturalist and materialist assumptions of catastrophism forwarded by other researchers Farrell asserts that it is time to take the ancient myths of a Cosmic War in the heavens seriously Incorporating extraterrestrial artifacts cutting edge ideas in contemporary physics and the texts of ancient myths into his argument Farrell maintains that an ancient interplanetary war was fought in our own solar system with weapons of extraordinary power and sophistication In doing so he offers a solution to an enigma that has long mystified researchers disclosing a cause of that ancient war the means by which it was waged and the real nature of the secret technology behind the ancient Tablets of Destinies It is all here folks The history of the Exploded Planet hypothesis and what mechanism can actually explode a planet The role of plasma cosmology plasma physics even plasma paleophysics and scalar physics The ancient texts telling of such destructions from Sumeria Tiamat's destruction by Marduk Egypt Edfu and the Mars connections Greece Saturn's role in the War of the Titans and the ancient Americas The Night Sky. Updated and Expanded Edition Richard Grossinger, 2014-09-30 Ever since Homo sapiens first looked up at the stars we as a species have been looking for meaning in the mysteries of the night sky Over the millennia as our knowledge science and technology developed the stories we told ourselves about the universe and our place in it developed as well In The Night Sky Richard Grossinger traces those developments covering multiple aspects of humanity's complex relationship to the cosmos Covering not only astronomy but also cosmology cosmogony astrology and science fiction he offers us a revelatory look at the firmament through his own telescope fitted with an anthropological lens Throughout his explorations Grossinger continually reflects on the deeper meaning of our changing concepts about the universe and creation offering insight into how each new discovery causes us to redefine the values moralities and aesthetics by which we live He also calls into question the self aggrandizing notion that humanity can and will conquer all and injects our strident confidence in science with a healthy dose of humility and wonder Filled with poetic observation and profound questions The Night Sky is a brilliant reflection of humanity's relationship with the cosmos a relationship fed by longing doubt and awe American Book Publishing Record
