Khalil Saucier, Tryon P. Woods, 2024-06-10 *African Migrants European Borders and the Problem with Humanitarianism* presents a probing examination of the contemporary migrant crisis in the Mediterranean Basin By centering our analysis on how racial slavery has shaped European democratic culture its abolitionist traditions and the global structures of capital accumulation P Khalil Saucier and Tryon P Woods reveal and confront how contemporary discourse on the migrant crisis displaces Black sovereign mobility Their inquiry into the

modern world's culture of politics investigates freedom of movement discourse's ostensible confrontation with border policing the memorializing of Black migrant deaths by artists and advocates and the visual imagery of a cosmopolitan and multicultural Europe as conceived by filmmakers in response to the migrant crisis as variants of a slaveholding culture instantiated in the early Mediterranean and Atlantic worlds This analysis allows the authors to formulate a new critical framework for analysis of both the problems of contemporary migration and borders and the leading prescriptions on offer from analysts advocates and policy makers in order to develop alternate ways of conceptualizing global society

The Deportation Express Ethan Blue, 2021-10-19 A history of the United States systematic expulsion of undesirables and immigrants told through the lives of the passengers who travelled from around the world only to be locked up and forced out aboard America's first deportation trains The United States celebrated as a nation of immigrants and the land of the free has developed the most extensive system of imprisonment and deportation that the world has ever known The Deportation Express is the first history of American deportation trains a network of prison railroad cars repurposed by the Immigration Bureau to link jails hospitals asylums and workhouses across the country and allow forced removal with terrifying efficiency With this book historian Ethan Blue uncovers the origins of the deportation train and finds the roots of the current moment as immigrant restriction and mass deportation once again play critical and troubling roles in contemporary politics and legislation A century ago deportation trains made constant circuits around the nation gathering so called undesirable aliens migrants disdained for their poverty political radicalism criminal conviction or mental illness and conveyed them to ports for exile overseas Previous deportation procedures had been violent expensive and relatively ad hoc but the railroad industrialized the expulsion of the undesirable Trains provided a powerful technology to divide citizens from aliens and displace people in unprecedented numbers Drawing on the lives of migrants and the agents who expelled them The Deportation Express is history told from aboard a deportation train By following the lives of selected individuals caught within the deportation regime this book dramatically reveals how the forces of state exclusion accompanied epic immigration in early twentieth century America These are the stories of people who traveled from around the globe only to be locked up and cast out deported through systems that bound the United States together and in turn pulled the world apart Their journey would be followed by millions more in the years to come

*Mexican Migrants and the Rise of the Deportation Regime, 1942-2014* Adam S. I. Goodman, 2015 This dissertation traces the rise of the deportation regime in the United States from 1942 to the present It reveals that the origins of the regime are inextricably intertwined with the history of Mexican migration It uses a diverse array of English and Spanish language archival sources from the United States and Mexico more than twenty oral histories and materials obtained

through the Freedom of Information Act to show how deportation has changed qualitatively and quantitatively over the last seventy two years This dissertation sheds light on deportation s magnitude both past and present It interrogates the inaccurate and inconsistent ways that scholars journalists and government agencies have defined deportation and puts forth a definition that incorporates the variety of methods immigration authorities have employed to effect expulsions from formal deportations and voluntary departures to scare tactic driven publicity campaigns meant to encourage people to self deport This in turn forces us to reassess our understanding of immigration policy and the immigrant experience in US history This dissertation also offers a fine grained social history of deportation showing how individuals communities and organizations on both sides of the border shaped and were shaped by US and Mexican state policies It argues that we must go beyond the gendered history that paints migrants and deportees as one dimensional temporary male laborers and instead examine deportation s impact on men women and children who belonged to familial local national and transnational networks An analysis of the political economy of deportation reveals that in some cases expulsion resulted not only from negotiations between two states but also from interpenetrating and corrupt public private relations This dissertation shows how deportation and the possibility of being deported became a quotidian part of Mexican migrants lives It shows how immigration raids created ever present internal borders and it examines how migrants and activists took to the streets and the courts in response Finally it lays bare the connection between the deportation regime s punitive turn and the growth of the carceral state in recent decades

Deport Nancy Hiemstra,2019-03-15 Detention and deportation have become keystones of immigration and border enforcement policies around the world The United States has built a massive immigration enforcement system that detains and deports more people than any other country This system is grounded in the assumptions that national borders are territorially fixed and controllable and that detention and deportation bolster security and deter migration Nancy Hiemstra s multisited ethnographic research pairs investigation of enforcement practices in the United States with an exploration into conditions migrants face in one country of origin Ecuador Detain and Deport s transnational approach reveals how the U S immigration enforcement system s chaotic organization and operation distracts from the mismatch between these assumptions and actual outcomes Hiemstra draws on the experiences of detained and deported migrants as well as their families and communities in Ecuador to show convincingly that instead of deterring migrants and improving national security detention and deportation generate insecurities and forge lasting connections across territorial borders At the same time the system s chaos works to curtail rights and maintain detained migrants on a narrow path to deportation Hiemstra argues that in addition to the racialized ideas of national identity and a fluctuating dependence on immigrant labor that have long

propelled U S immigration policies the contemporary emphasis on detention and deportation is fueled by the influence of people and entities that profit from them      **Ethnic Cleansing in the USSR, 1937-1949** J.
