*Dismantling the Master's Clock* Rasheedah Phillips,2025-01-28 A radical new treatise on time quantum physics and racial justice from world renowned artist and advocate Rasheedah Phillips of Black Quantum Futurism Dismantling the Master s Clock is a groundbreaking debut work that synthesizes philosophy and the history of science with Black cultural traditions speculative fiction and Phillips s own art practice to argue for a more equitable access to time and the future While some processes like aging birth or car crashes seem to occur in only one direction of time by the apparent logic of the universe human consciousness should experience time both backwards and forwards Though past and present organize our lives like unarguable fact the physicists who study time are much less certain Linear time is an illusion explains Rasheedah Phillips a construct even science contests It is based more on Western history and systems of social order than on nature or the variety of human existence Both indigenous African conceptions of time and quantum physics recognize how the past present and future act upon and modify each other Afro diasporic identity is itself a time traveling phenomenon in which the past is always present Phillips unfurls time s legacy of racial oppression from maritime navigation for colonial expansion and the timekeeping methods of plantation overseers to the establishment of Greenwich Mean Time and the Western Scramble for Africa time has been a homogenizing project of the last few centuries Phillips unsettles dominant assumptions of space and time highlighting how Black communities have long subverted these through alternative temporal frameworks     **The**
