

The background of the cover is a painting. On the left, a figure is wrapped in a thick, textured material, resembling a mummy or a person in a cast. The figure is positioned vertically. To the right, a dog, possibly a pointer, is shown in profile, looking towards the mummy. The background is dark and moody, with some light filtering through, suggesting an indoor setting with a window or a cave entrance. The overall tone is somber and mysterious.

**James C. Wilson, Cynthia Lewiecki-
Wilson**

The Disarticulate Language Disability And The Narratives Of Modernity Cultural Front:

The Disarticulate James Berger, 2014-05-23 Language is integral to our social being But what is the status of those who stand outside of language The mentally disabled wild children people with autism and other neurological disorders as well as animals infants angels and artificial intelligences have all engaged with language from a position at its borders In the intricate verbal constructions of modern literature the disarticulate those at the edges of language have paradoxically played essential defining roles Drawing on the disarticulate figures in modern fictional works such as *Billy Budd* *The Sound and the Fury* *Nightwood* *White Noise* and *The Echo Maker* among others James Berger shows in this intellectually bracing study how these characters mark sites at which aesthetic philosophical ethical political medical and scientific discourses converge It is also the place of the greatest ethical tension as society confronts the needs and desires of the least of its brothers Berger argues that the disarticulate is that which is unaccountable in the discourses of modernity and thus stands as an alternative to the prevailing social order Using literary history and theory as well as disability and trauma theory he examines how these disarticulate figures reveal modernity's anxieties in terms of how it constructs its others

Deafening Modernism Rebecca Sanchez, 2015-10-02 *Deafening Modernism* tells the story of modernism from the perspective of Deaf critical insight Working to develop a critical Deaf theory independent of identity based discourse Rebecca Sanchez excavates the intersections between Deaf and modernist studies She traces the ways that Deaf culture history linguistics and literature provide a vital and largely untapped resource for understanding the history of American language politics and the impact that history has had on modernist aesthetic production Discussing Deaf and disability studies in these unexpected contexts highlights the contributions the field can make to broader discussions of the intersections between images bodies and text Drawing on a range of methodological approaches including literary analysis and history linguistics ethics and queer cultural and film studies Sanchez sheds new light on texts by T S Eliot Ezra Pound Gertrude Stein William Carlos Williams Charlie Chaplin and many others By approaching modernism through the perspective of Deaf and disability studies *Deafening Modernism* reconceptualizes deafness as a critical modality enabling us to freshly engage topics we thought we knew

Body Language G. Thomas Couser, 2018 As much as we may like to evade them illness and disability inescapably attend human embodiment we are all vulnerable subjects So it might seem natural and inevitable that the most universal most democratic form of literature autobiography should address these common features of human experience Yet for the most part autobiographical writing expressive of illness and disability remained quite uncommon until the second half of the twentieth century when it flourished concurrently with successive civil rights movements Women's liberation with its signature manifesto *Our Bodies Ourselves* supported the breast cancer narrative the gay rights movement encouraged AIDS narrative in response to a deadly epidemic and the disability rights movement stimulated a surge in narratives of various disabilities Conversely the narratives helped to advance the respective rights movements Such writing then has been

representative in two senses of the term aesthetic mimetic and political acting on behalf of It has done and continues to do important cultural work This volume explores this phenomenon using the latest critical theories and from the perspectives of patients and creative writers as well as academics It attends to the problematic intersection of trauma and disability it encompasses graphic narratives essays and diaries as well as full length memoirs and it examines the ethical as well as the aesthetic dimensions of narrative This book was originally published as a special issue of Life Writing Provided by publisher

Deaf Subjects Brenda Jo Brueggemann, 2009-05 In this probing exploration of what it means to be deaf Brenda Brueggemann goes beyond any simple notion of identity politics to explore the very nature of identity itself Looking at a variety of cultural texts she brings her fascination with borders and between places to expose and enrich our understanding of how deafness embodies itself in the world in the visual and in language Taking on the creation of the modern deaf subject Brueggemann ranges from the intersections of gender and deafness in the work of photographers Mary and Frances Allen at the turn of the last century to the state of the field of Deaf Studies at the beginning of our new century She explores the power and potential of American Sign Language wedged as she sees it between letter bound language and visual ways of learning and argues for a rhetorical approach and digital future for ASL literature The narration of deaf lives through writing becomes a pivot around which to imagine how digital media and documentary can be used to convey deaf life stories Finally she expands our notion of diversity within the deaf identity itself takes on the complex relationship between deaf and hearing people and offers compelling illustrations of the intertwined and sometimes knotted nature of individual and collective identities within Deaf culture
