**The Domestic Politics of Foreign Aid** Erik Lundsgaarde, 2012-12-12 In spite of shared rhetorical commitments to tackling poverty worldwide donors have varied considerably in their use of aid as an instrument for global poverty reduction This book explains varied donor priorities by examining how societal actors governmental actors and the institutions that regulate their interactions influence development policy choices The Domestic Politics of Foreign Aid challenges explanations for donor generosity that identify humanitarian values partisan politics and welfare state institutions as key determinants of aid giving patterns It explains how the preferences of diverse sets of actors are amalgamated in the domestic political arena to shape national preferences for international redistribution Drawing on interview research conducted with a variety of stakeholders in four donor countries Denmark France Switzerland and the United States and an extensive review of primary and secondary sources on aid politics in the countries studied the book offers both a static overview of the characteristics of aid policymaking systems and a historical treatment of policymaking dynamics over a 25 year period 1980 2005 Applying a common theoretical framework to the four case studies and using development NGO advocacy as a starting point for examining the politics of aid this book provides a synthesis of several strands of theoretical work dealing with interest group politics and political institutions to inform the analysis of the societal and governmental determinants of aid choices

**The Domestic Politics of Foreign Aid** Erik Lundsgaarde, 2013 This book explains the choices that states make concerning the volume of development aid they provide and what types of priorities are supported with this assistance The core argument of the book is that aid choices are a product of domestic politics in donor countries which involve a variety of actors that differ in character across the donor community

Global Food Security and Development Aid Ivica Petrikova, 2016-11-03 At the global level international actors have repeatedly expressed their desire to end hunger and food insecurity However food insecurity has persisted More analysis is hence needed on the link between continuously high levels of global food insecurity and the ever increasing flow of development aid Global Food Security and Development Aid investigates the impact that development aid has had on food security in developing countries and includes international case studies on Peru Ethiopia India and Vietnam It examines the effect of development aid in general and the impact of aid divided into different categories based on donor mechanism and sector to which it is provided In each examined relationship between aid and food security particular attention is paid to the potentially intervening role played by the quality of national and or local governance The book makes policy recommendations most importantly that donors should take greater care in considering which types of aid are suitable to which specific countries localities and development goals and account for expected developments in the complex relationship between aid food security and governance This book will be of considerable interest to students researchers and policy makers in the areas of development aid and food security

**New Troubles for the West** Joshua W. Busby, 2004

China Risen? Shaun Breslin, 2021-02-18 This major new study examines the nature of Chinese power and its

impact on the international order Drawing on an extensive range of Chinese language debates and discussions the book explains the roles of different actors and interests in Chinese international interactions and how they influence the nature of Chinese strategies for global change It also gives a unique perspective on how assessments of the consequences of China's rise are formed and how and why these understandings change Providing an important challenge to scholars and policy makers who seek to engage with China the book demonstrates just how far starting assumptions can influence the questions asked evidence sought and conclusions reached

Foreign Aid and Development in South Korea and Africa Kelechi A. Kalu, Jiyoung Kim, 2021-08-15 This book compares the rapid development of South Korea over the past 70 years with selected countries in sub-Saharan Africa to assess what factors contributed to the country's success story and why it is that countries that were comparable in the past continue to experience challenges in achieving and sustaining economic growth In the 1950s South Korea's GDP per capita was 876 roughly comparable with that of Cote d'Ivoire and somewhat below Ghana's The country's subsequent transformation from a war-ravaged international aid-dependent economy to the 13th largest economy in the world has been the focus of considerable international admiration and attention But how was it that South Korea succeeded in multiplying its GDP per capita by a factor of 23 while other Less Developed Countries continue to experience challenges This book compares South Korea's politics of development and foreign assistance with that of Ghana Nigeria and Zambia which were also major recipients of the U.S. aid to investigate the specific contexts that made it possible for South Korea to achieve success Overall this book argues that effective state capacity in South Korea's domestic and international politics provided an anchor for diplomatic engagement with donors and guided domestic political actors in the effective use of aid for economic development This book will be of interest to researchers and students working on development comparative political economy and foreign aid and to policy makers and practitioners looking for a greater understanding of comparative development trajectories

**The Globalization of Foreign Aid** Liam Swiss, 2017-12-01 Why do aid agencies from wealthy donor countries with diverse domestic political and economic contexts arrive at very similar positions on a wide array of aid policies and priorities This book suggests that this homogenization of policy represents the effects of common processes of globalization manifest in the aid sector Drawing on both quantitative and qualitative analysis of policy adoption the book argues that we need to examine macro-level globalizing influences at the same time as understanding the micro-level social processes at work within aid agencies in order to adequately explain the so-called emerging global consensus that constitutes the globalization of aid The book explores how global influences on aid

agencies in Canada Sweden and the United States are mediated through micro level processes Using a mixed methods approach the book combines cross national statistical analysis at the global level with two comparative case studies which look at the adoption of common policy priorities in the fields of gender and security The Globalization of Foreign Aid will be useful to researchers of foreign aid development international relations and globalization as well as to the aid policy community The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY 4.0 license

**Foreign Aid in a World in Crisis** Viktor Jakupec, Max Kelly, John McKay, 2024-02-29 This book investigates the geopoliticisation of foreign aid in recent years against a background of global overarching crises such as climate change conflict Covid 19 economic crisis energy shortages and migration Foreign aid has historically been understood as assisting both with the development objectives of the recipients and with the trade and geopolitical interests of the donors In the first decades of the 21st century however this balance has been shifted by a series of complex global challenges This book argues that donors have now moved towards framing aid as a geopolitical instrument wherein aid can be given or withheld based on power or political intent thus imposing the donor's specific values and norms This book provides an in depth analysis of this weaponisation of foreign aid within a framework of global disruption and ultimately concludes that the world is at a tipping point towards a new socio political world order Asking important questions about the power dynamics at play within the aid sector this book will be an important read for researchers across development studies political science international relations and global affairs

**China's Foreign Relations and the Survival of Autocracies** Julia Bader, 2014-10-30 The Chinese government has frequently been criticized for propping up anti democratic governments This book investigates the rise of China as an emerging authoritarian power By comparing China's bilateral relations to three Asian developing countries Burma Cambodia and Mongolia it examines how China targets specific groups of actors in autocracies versus non autocracies It illustrates how the Chinese non interference policy translates into support for incumbent leaders in autocratic countries and how the Chinese government has thereby profited from exploiting secretive decision making in autocracies to realize its own external interests such as achieving access to natural resources In a statistical analysis of the patterns of Chinese external cooperation and their impact on the survival of autocratic leaders the book finds some evidence that China is more likely to target autocracies with economic cooperation However only some forms of bilateral interaction are found to increase the prospect of survival for autocratic leaders This important contribution to the understanding of both external factors of authoritarian endurance and China's foreign relations a field of study still lacking systematic investigation will be of great interest to students and researchers in Development Studies Asian Studies International Relations and International Political Economy

**Foreign Aid and Development** Finn Tarp, 2014 Aid has worked in the past but can be made to work better in the future In this important new book leading economists and political scientists including experienced aid practitioners re

examine foreign aid The evolution of development doctrine over the past fifty years is critically investigated and conventional wisdom and current practice is challenged As well as offering important new research material the book opens up new directions for future practice and policy It will be of vital interest to those working in economics politics and development studies as well as to governmental and aid professionals     *Paperbacks in Print* ,1978     *The Politics and Economics of Britain's Foreign Aid* Tim Lankester,2013-07-08 The Pergau dam in Malaysia was the most controversial project in the history of British aid Because of its high cost it was a poor candidate for aid funding It was provided in part to honour a highly irregular promise of civil aid in connection with a major arms deal After two parliamentary inquiries and intense media coverage in a landmark judgement the aid for Pergau was declared unlawful Tim Lankester offers a detailed case study of this major aid project and of government decision making in Britain and Malaysia Exposing the roles played by key politicians and other stakeholders on both sides he analyses the background to the aid arms linkage and the reasons why the British and Malaysian governments were so committed to the project before exploring the response of Britaine tm s Parliament and its media and NGOs and the resultant legal case The main causes of the Pergau debacle are carefully drawn out from conflicting policy agendas within the British government to the power of the business lobby and the inability of Parliament to provide any serious challenge Finally Lankester asks whether given what was known at the time and what we know now he and his colleagues in Britaine tm s aid ministry were correct in their objections to the project Pergau is still talked about as a prime example of how not to do aid Tim Lankester a key figure in the affair is perfectly placed to provide the definitive account At a time when aid budgets are under particular scrutiny it provides a cautionary tale     *Aanwinstenlijst Centrale Bibliotheek Koninklijk Instituut voor de Tropen.
