The Double Burden Of Malnutrition In Asia Interventions For Effective Action:

Attacking the Double Burden of Malnutrition in Asia and the Pacific Stuart R. Gillespie, Lawrence James Haddad, Lindsay Allen, 2001 [The Greenwood Encyclopedia of Children's Issues Worldwide](#) Irving Epstein, 2007-12-30 From the skyrocketing AIDS rate in Haiti to the oppressive pollution in industrial China from the violent street culture of Nigeria to the crippling poverty in Nicaragua from child trafficking in Thailand to child marriages in India this jam packed six volume set explores all these issues and more in an unprecedented look at the world's children at the dawn of the 21st century. In recent years while many countries have enjoyed a higher standard of living and improved working conditions others have been torn apart by war and incapacitated by famine and are struggling to improve life for their children and their future. Recent concern over the world's children has resulted in a global attempt to define what constitutes an acceptable childhood. New attention has been paid not only to healthcare and secondary education but also to the right to play and increased access to technology. The UN's codification of children's rights has done much to expand our understanding of what is needed for healthy growth and development of children and youth. Organized by region [The Greenwood Encyclopedia of Children's Issues Worldwide](#) is the first globally focused set of this magnitude offering extensive up to date coverage of these critical issues. Original chapters accessibly synthesize current data on key topics including education, play and recreation, child labor, family health laws and legal status, religious life, abuse and neglect, and growing up in the 21st century.

[Asia and the Pacific - Regional Overview of Food Security and Nutrition](#), 2022 Food and Agriculture Organization of the United Nations, United Nations Children's Fund, World Food Programme, World Health Organization, 2023-03-10 This is the fifth edition of the Asia and the Pacific Regional Overview of Food Security and Nutrition annual report. This publication is led by FAO's Regional Office for Asia and the Pacific (RAP) and jointly contributed to by United Nations partner agencies UNICEF, WFP, WHO on the region's progress or lack thereof to achieve the Sustainable Development Goals in particular SDG 2 Ending Hunger and the World Health Assembly (WHA) 2030 targets on food security and nutrition. In recent years previous editions reported that progress was stalling then regressing and then more recently pushing us further off track. This reverse was evident even before the COVID 19 pandemic took hold in 2020. The decline continued and worsened during the pandemic and the data is captured in this report. Updated estimates on the cost and affordability of a healthy diet show that nearly 45 percent of the region's population cannot afford one. Reducing the cost of a healthy diet and making it more affordable is a critical element for achieving ending hunger SDG 2 and also the other SDGs. This year's report also looks closely at food security and nutrition in urban areas which will increasingly contribute to the progress in SDG indicators as the proportion of the urban population across the region is set to cross 50 percent in this decade. *Human Nutrition* Catherine Geissler, Hilary J. Powers, 2017 The field of human nutrition has expanded hugely in recent years to now encompass topics as diverse as nutritional genomics and food security.
