## **The Driving Force Extraordinary Results With Ordinary People:**

**The Driving Force** Peter Schutz, 2005-12 What makes a company great After all management trends come and go Economic conditions fluctuate and market demands shift Corporations re structure and new owners take over The one constant the one enduring truth is that people define the character of a company They always have and always will Motivated passionate people make the difference between ho hum mediocrity and extraordinary performance That s the message from Peter W Schutz former CEO of Porsche AG and author of this new book Schutz explains that people are the heart and soul of any business In The Driving Force he shares a wealth of insights he learned throughout his career that relate to the successful management of people

**Permission to Screw Up** Kristen Hadeed, 2017-10-10 The inspiring unlikely laugh out loud story of how one woman learned to lead and how she ultimately succeeded not despite her many mistakes but because of them This is the story of how Kristen Hadeed built Student Maid a cleaning company where people are happy loyal productive and empowered even while they re mopping floors and scrubbing toilets It s the story of how she went from being an almost comically inept leader to a sought after CEO who teaches others how to lead Hadeed unintentionally launched Student Maid while attending college ten years ago Since then Student Maid has employed hundreds of students and is widely recognized for its industry leading retention rate and its culture of trust and accountability But Kristen and her company were no overnight sensation In fact they were almost nothing at all Along the way Kristen got it wrong almost as often as she got it right Giving out hugs instead of feed back fixing errors instead of enforcing accountability and hosting parties instead of cultivating meaningful relationships were just a few of her many mistakes But Kristen s willingness to admit and learn from those mistakes helped her give her people the chance to learn from their own screwups too Permission to Screw Up dismisses the idea that leaders and organizations should try to be perfect It encourages people of all ages to go for it and learn to lead by acting rather than waiting or thinking Through a brutally honest and often hilarious account of her own struggles Kristen encourages us to embrace our failures and proves that we ll be better leaders when we do

**Driving Force** Peter W. Schutz, 2005 Summary People are the driving force in business Peter Schutz retired CEO of Porsche AG shares stories of how he used the same teamwork it took to build championship race cars to turn an ailing company around and restore it to prosperity and success At race circuits he notes the pit team pays little attention to rank or position I sometimes found myself being ordered to go fetch a tool or spare tire if I happened to be on hand The team simply works together to get the job done as well as humanly possible each person contributing to the best of his or her abilities Imagine what might be accomplished if a company could run that way The Driving Force is my story It is a story about a rather ordinary person who was able to accomplish some extraordinary things as a business leader

*Awakening The Genie Within* Bill Carpenter, 2023-05-15

Are your feelings thoughts and beliefs created mainly by intuition and the subconscious mind Or are they a product of your intellect and cultural social programming The former supports and enhances the natural flow of your life energy while the latter can shape direct or even block it In Awakening the Genie Within author Bill Carpenter deliberately invokes the word programming to convey how a lack of conscious involvement in your own life and fixed belief systems prevent you from fully embracing your inner genie the life force or spirit within you The book's purpose is to help you understand and transcend your individual and collective programming ego and culture and help you to live a more fulfilled and sustainable life If the mind is powerful enough to create the ego it can also transcend it Carpenter believes The exercises in this book are designed to do just that This practical and provocative guidebook poses tough questions to help you and your groups and organizations analyze your worldviews which can cause dissent among individuals and even outright oppression on a global scale The goal is to help you understand and challenge your tightly held belief systems that tend to divide us We have far more in common than that which the ego focuses on to separate us Carpenter is your engaging guide on this journey of self discovery for the betterment of yourself and the future of our world We must resist the lure to be mindless drones of the collective

Ayers, 2006 Lack of employee engagement is like a cancer eating away at your organization's vital organs It saps your organization's strength directly affecting your organization's ability to achieve the levels of customer satisfaction productivity

and profitability you know you could achieve Keith Ayers presents a compelling argument that the focus on engagement has failed because leaders think engagement can be bought through bonuses benefits and share options That is like trying to cure cancer with an aspirin or band aid The cure for the cancer of disengagement is for leaders to look in the mirror at the leadership they provide In this in depth exploration of the leadership skills needed to get every employee to want to perform at their best Ayers challenges leaders to stop focusing on engagement and set their sights on igniting the fire of passion in their employees
