Grey,2015-04-23 This book provides a new and powerful account of the demands of justice on immigration law and policy Drawing principally on the work of Adam Smith Immanuel Kant and John Rawls it argues that justice requires states to give priority of admission to the most disadvantaged migrants and to grant some form of citizenship or non oppressive status to those migrants who become integrated It also argues that states must avoid policies of admission and exclusion that can only be implemented through unjust means It therefore refutes the common misconception that justice places no limits on the discretion of states to control immigration      Research in African Literatures ,1994      Creative Radicalism in the Middle East Caroline Rooney,2020-06-11 Addressing the question of how neoliberal ideology has served to conflate the radical left with extremism this book examines how the Arab left has asserted itself in the context of authoritarianism and Islamic

extremism during and after the Arab uprisings It examines how the Arab cultural left has offered a critique of the signifying practices of political hegemonies in the region and argues that though creative expression as constituted in the very language of the Arab uprisings it has put forward its own alternatives Using a wide array of texts and sources both Arab and non Arab the opening chapters of the book identify how ethical and radical values pertaining to sociality are co opted by political leaders in the Middle East and turned into jargon Later chapters outline resistance to this co option through a poetics of inter subjectivity that takes structures of feeling into account ranging from disappointment despair and distrust to dignity solidarity and reconfigured senses of the sacred In showing how psychological and affective states relate to signifying practices the book offers an original conceptual framework for differentiating radicalization from the creative radicalism of the Arab avant garde      *Addresses Delivered at the Southern Sociological Congress* ,1913      **Ethical Models and**
