*New Century Handbook and Atlas of the Bible* Anson F. Rainey, R. Steven Notley, 2007 Carta's New Century Handbook and Atlas of the Bible presents the reader with a review of the ancient world from the Fourth Millennium BCE up through the Bar Kochba Revolt of 132-135 CE. This Bible atlas is a detailed backdrop to the Holy Scriptures and reviews all the major Empires and salient events which bear so heavily upon an understanding of the Biblical world. A masterpiece of scholarship, Carta's New Century Handbook and Atlas of the Bible is a concise version of Carta's more extensive *The Sacred Bridge: The Dead Sea Scrolls* Eileen M. Schuller, 2006-04-15. In the winter of 1946-47, a shepherd boy threw a stone into a cave hitting a clay jar and uncovering one of the most significant archaeological discoveries of modern times, the Dead Sea Scrolls. Though the saga of the discovery has been told and retold many times, less attention has been paid to how the events have unfolded over the decades. In this accessible and illuminating work, one of the world's foremost Dead Sea Scrolls scholars and one of the first women to actually see the documents, reflects on the most significant learnings about these ancient documents of faith.

**The Dead Sea Scrolls and the New Testament** George J. Brooke, Brooke illuminates the first century world shared by the Qumran community and the writers of the New Testament. The Dead Sea Scrolls have provided Old Testament scholars with an enormous wealth of data for textual criticism as well as theology. But as Brooke skillfully demonstrates, New Testament scholars can use the Scrolls to learn more about the linguistic, historical, religious, and social contexts of Palestine in the first century. A wide range of topics and themes is discussed, including Matthew's Beatitudes, the lost song of Miriam, Levi and the Levites' women's authority, and the use of scripture in the parable of the vineyard.      **One Hundred Years of American Archaeology in the Middle East** Douglas R. Clark, Victor Harold Matthews, 2003 Twenty four essays by leading scholars review the results of a century of North American archaeological research in the Middle East conducted under the auspices of the American Schools of Oriental Research. The contributors consider each of the major historical archeological periods in the Ancient Near East and discuss cultural issues such as technology, religion, and economic and political realities.

**Shepard's Causes of Action Second**, 1993      **Millennialism from the Hebrew Bible to the Present** Philip M. and Ethel Klutznick Chair in Jewish Civilization, Symposium, 2002 The concept of millennialism of a looming End of Days that will usher in salvation and a new world is prevalent in Jewish history and culture and also serves as a cornerstone for a number of Christian faiths. Millennialism has also sprung up among certain disenfranchised, marginalized, or conquered peoples at different times and places throughout history. From the coming of the Jewish Messiah to the 1890 Native American Ghost Dance to modern Cargo Cults of the Pacific Islands to recent prophecies concerning the dawn of the third millennium, people have anticipated, feared, and built their lives around a transformation of their world marked by a significant calendar moment or momentous event. The twelve contributors to this volume examine the concept of the End of Days in Judaic history and

culture as well as other important manifestations in the past and present Topics include the dynamics and process of millennialism the role of children in millennial religions the enduring messianic significance of Jerusalem the influence of ancient Judaic millennialism on current sensibilities a comparison of the roots and meanings of Jewish Muslim and Christian calendars the roots of the Christian antichrist in Jewish traditions of evil differing rabbinical interpretations of the End of Days the impact of millennialism on the Franciscan mission to New Spain millennialism as a process of cultural mourning and rebirth the appropriation and reinterpretation of the Book of Revelation by new religious movements the significance and influence of apocalyptic movies and the emergence of millennialism in popular culture in such television shows as The X Files

Court,2001 This pioneering study by leading scholars in the field surveys a century of scholarship and seeks to untangle the complexities of religious interactions and conflict in the first century CE Over the last hundred years there has been a great deal of interest in the nature of religious diversity in the Graeco Roman world A wide variety of scholars have attempted to untangle the complexities of religious interaction and conflict that characterized it in every phase Students of this period now have a convenient and authoritative introduction to recent work in this vast field of scholarship The volume comprises Philip Esler on Palestinian Judaism in the First Century John Barclay on Diaspora Judaism Charlotte hmpel on the Essenes Donald Hagner on Historical Jesus studies James Dunn on Paul Thomas O Loughlin on The Early Church Graham Anderson on Greek religione Robin Mc L Wilson on Gnosticism and John Court on Mithraism **From Antipas to Agrippa II** Bradley Walter Root,2009 This dissertation argues against the widespread belief among current scholars that Galilee experienced extensive Hellenization rapid urbanization and a socio economic crisis in the first century C E as a result of major socio economic changes initiated by Herod the Great and his successors My research indicates that earlier studies allowed the textual evidence to have an undue influence on the way that scholars interpret the archaeological evidence and vice versa Unlike previous studies on Early Roman Galilee the dissertation begins by attempting to interpret each source for the region individually and without recourse to other sources

After establishing what each source says on its own about Galilee the dissertation analyzes the data as a whole and offers a reconstruction of Galilean society in the first century C E that better reflects the available evidence The major findings are that the region was politically stable until the Great Revolt of 66 C E that the region was much less Hellenized than some prominent scholars claim that the urbanization process initiated by Herod Antipas had less of a negative immediate impact on Galilean society than modern scholars usually assume and that Galilee was not experiencing any unusual or severe socio economic problems prior to the revolt
