

## Piaget

- Language is developed from the child's environment
- children's development is in 4 stages:
  - Preoperational
  - Concrete operational
  - Sensorimotor
  - Formal operational
- Children learn independently
- He believed they learn more one on one and hands on learning experiences.

## Vygotsky

- Language helps shape thought
- Zone of proximal development
- Social learning helps speed up development
- Language is developed from social interactions
- Culture affects a child's cognitive development
- Children learn more in a group setting, while incorporating play

## Comparison

*Understanding Child Development* Rosalind Charlesworth, 2000. Designed for students in early childhood education teacher preparation programs. *Understanding Child Development* gives a practical understanding of the young child from the prenatal period through age eight. It introduces the unique qualities of the young child as distinguished from older children and demonstrates how to work with young children in ways that correspond with their developmental level and social and cultural environment. Related to the child's development are current issues such as developmentally appropriate practice, development of early stages of reading, the role of technology in children's lives, the importance of brain development and the factors relevant to children with special needs. These topics connect the text's content directly to problems adults will face when working with young children. Each section of the book contains critical social and cultural factors related to young children's development with much new information added in these areas including socio-cultural aspects of family, school and community and material on learning theories and diverse cultures. Up-to-date critical developmental research and theory support the text. It includes helpful review questions, further reading examples, observation checklists and references to aid in the student's learning.

*The Development of Children and Adolescents* Penny Hauser-Cram, J. Kevin Nugent, Kathleen Thies, John F. Travers, 2013-11-21. *The Development of Children and Adolescents* by Penny Hauser-Cram, J. Kevin Nugent, Kathleen Thies and John F. Travers provides an integrated view of child development. Presenting the most pertinent research for each developmental stage and linking this to practical applications in the areas of Parenting, Policy and Practice, this balanced approach emphasizes the relationship between research and theory and applications. The rich media program including WileyPLUS with Real Development promotes active learning and allows for increased understanding and comprehension of the course content. Real Development, authored by Nicole Barnes, Ph.D., Montclair State University and Christine Hatchard, Psy.D., Monmouth University, uses authentic video showcasing real families along with activities and assessments that put students in the place of a professional to gain an understanding of key concepts. Through the combination of text and media, students are engaged in meaningful learning that deepens and enriches their understanding of developmental concepts. WileyPLUS sold separately from text.
