*Re-thinking Mediations of Post-truth Politics and Trust* Jayson Harsin, 2023-12-29 This collection reaches beyond fake news and propaganda misinformation and charismatic liars to explore the lesser publicized cultural forms and practices that serve as a cultural infrastructure for post truth society and politics. Situating post truth in specific contexts as a site of contestation or crisis the book critically explores it as a dynamic and shifting site around which political and cultural practices in specific contexts revolve and overlap. Through a breadth of perspectives the volume considers a number of overlapping cultural and political developments across varying national and transnational contexts changing technologies and practices of cultural production that sometimes shift and at other times reproduce authority of traditional institutional truth tellers. Seismic cultural changes in representations values and roles regarding gender sexuality race and historical memory about them as well as corresponding reactionary discourses in the culture wars questions of authenticity honesty and power relations that combine many of the former shifts within an all encompassing culture of self promotional attentional capitalism. These considerations lead scholars to focus on corresponding shifting cultural dynamics of popular truth telling and dis trust making that inform political culture. In this more global view post truth becomes foremost an influentially anxious public mood about the struggles to secure or undermine publicly accepted facts. This nuanced and insightful collection will interest scholars and students of communication studies media and cultural studies media ethics journalism media literacy sociology anthropology philosophy and politics.
