**Computer Science Project Work** Sally Fincher, Marian Petre, Martyn Clark, 2001-02-01 Ninety percent of any Computing Science academic staff are involved with project work at some stage of their working life Often they have no previous experience of how to handle it and there are no written guidelines or reference books at the moment Knowledge and practical experiences are often only disseminated from one institution to another when staff change jobs This book is the first reference work to fill that gap in the market It will be of use to lecturers and course designers who want to improve their handling of project work in specific courses and to department heads and deans who want to learn about overall strategic issues and experiences from other institutions

**Ethics and Experiments** Scott Desposato, 2015-12-22 For most of political science s history discussions about professional ethics had nothing to do with human subjects Professional ethics involved integrity in the classroom fair tenure and promotion rule and the careful avoidance of plagiarism As most research was observational there was little need for attention to how scholarly activities might directly affect the subjects of our work Times have changed The dramatic growth in the use of experiments in social science especially overseas is generating unexpected ethical controversies The purpose of this volume is to identify debate and propose practical solutions to the most critical of these new ethical issues A leading team of internationally distinguished political science scholars presents the first examination of the practical and ethical challenges of research with human subjects in social science and policy studies Part 1 examines contextual challenges provided by experiments conducted overseas questions of culture religion security and poverty Part 2 examines questions of legal constraints on research focusing on questions of foreign review of international experiments Part 3 tackles the critical issues in field experiments including deception and consent impact on elections and careers the boundaries of the public officials exemption and the use of partner organizations to avoid Institutional Review Body IRB review Part 4 considers strategies for the future including training and education IRB reform institutional changes and norm development
