**Marketing Michelin** Stephen L. Harp, 2001-12-14 Harp uses the familiar figure of Bibendum and the promotional campaigns designed around him to analyze the cultural assumptions of belle époque France including representations of gender race and class He also considers Michelin's efforts to promote automobile tourism in France and Europe through its famous Red Guide first introduced in 1900 noting that in the aftermath of World War I the company sold tour guides to the battlefields of the Western Front and favourably positioned France's participation in the war as purely defensive and unavoidable Throughout this period the company successfully identified the name of Michelin with many aspects of French society from cuisine and local culture to nationalism and colonialism

**Histories of Leisure** Rudy Koshar, 2002-04-01 In the wake of the American and French revolutions European culture saw the evolution of a new leisure regime never previously enjoyed Now we speak of modern leisure societies but the history of leisure its experiences and expectations its scope and variability still remains largely a matter of conjecture One message that has emerged from a multiplicity of disciplines is that research on leisure and consumption opens up a hitherto untapped mine of information on the broader issues of politics society culture and economics How have leisure regimes in Europe evolved since the eighteenth century Why has leisure culture crystallized around particular practices sites and objects Above all what sorts of connections and meanings have been inscribed in leisure practices and how might these be compared across time and space This book is the first to provide an historical overview of modern leisure in a wide range of manifestations travel entertainment sports fashion taste and much more It will be essential reading for anyone wishing to know more about European history and culture or simply how people spent their free time before the age of television and the internet
