Reflecting today's most recent findings, this enlightening book presents an even-handed survey of Middle Eastern history from the rise of Islam to the present day, beginning with a substantial account of the early centuries and then concentrating primarily on the modern post-1914 decades. It provides concise, readable, and balanced coverage of Egypt, the Fertile Crescent, the Arabian Peninsula, Turkey, and Iran, and offers ten detailed maps and a useful bibliography of selected works to broaden readers' understanding. Deals with the whole Middle Eastern region within particular periods rather than on a topical or country-by-country basis, allowing readers to see the events in each country at any point in relation to what is happening in other parts of the Middle East. Offers a world historical perspective, emphasizing the relationship of the Middle East to other regions and civilizations, particularly with the West. Highlights from the Third Edition include a new section dealing with events from 1991 to 1996, an examination of the controversy over Orientalism, an updated bibliography, new glossary of terms, many relating specifically to Islam, and an appendix which fully explains the Pillars of Islam and Jihad. For historians.
