The Monstrosity Of Christ Paradox Or Dialectic Short Circuits:

The Monstrosity of Christ Slavoj Zizek, John Milbank, 2011-02-25 A militant Marxist atheist and a Radical Orthodox Christian theologian square off on everything from the meaning of theology and Christ to the war machine of corporate mafia. What matters is not so much that i ek is endorsing a demythologized disenchanted Christianity without transcendence as that he is offering in the end despite what he sometimes claims a heterodox version of Christian belief. John Milbank To put it even more bluntly my claim is that it is Milbank who is effectively guilty of heterodoxy ultimately of a regression to paganism in my atheism I am more Christian than Milbank Slavoj i ek In this corner philosopher Slavoj i ek a militant atheist who represents the critical materialist stance against religion's illusions in the other corner Radical Orthodox theologian John Milbank an influential and provocative thinker who argues that theology is the only foundation upon which knowledge politics and ethics can stand. In *The Monstrosity of Christ* i ek and Milbank go head to head for three rounds employing an impressive arsenal of moves to advance their positions and press their respective advantages. By the closing bell they have not only proven themselves worthy adversaries they have shown that faith and reason are not simply and intractably opposed i ek has long been interested in the emancipatory potential offered by Christian theology. And Milbank seeing global capitalism as the new century's greatest ethical challenge has pushed his own ontology in more political and materialist directions. Their debate in *The Monstrosity of Christ* concerns the future of religion secularity and political hope in light of a monstrous event: God becoming human. For the first time since i ek's turn toward theology we have a true debate between an atheist and a theologian about the very meaning of theology Christ the Church the Holy Ghost Universality and the foundations of logic. The result goes far beyond the popularized atheist theist point counterpoint of recent books by Christopher Hitchens Richard Dawkins and others i ek begins and Milbank answers countering dialectics with paradox. The debate centers on the nature of and relation between paradox and parallax between analogy and dialectics between transcendent glory and liberation. Slavoj i ek is a philosopher and cultural critic. He has published over thirty books including *Looking Awry* *The Puppet and the Dwarf* and *The Parallax View* these three published by the MIT Press. John Milbank is an influential Christian theologian and the author of *Theology and Social Theory* *Beyond Secular Reason* and other books. Creston Davis who conceived of this encounter studied under both i ek and Milbank. Christianity and Heavy Metal as Impure Sacred within the Secular West Jason Lief, 2017-06-13 This book explores the symbolic connections between Christianity and Heavy Metal music in the context of the secular West. Heavy Metal uses symbols and imagery taken from Christianity even if the purpose is to critique religion. This usage creates a positive connection with an interpretation of Christianity as a form of cultural critique. Given that Metal and Christianity are associated with Western culture this book explores how Christianity and Heavy Metal function within the context of secularity as a form of ideological critique. Using the ideas of Emile Durkheim Max Weber and Charles Taylor as a starting point this book explores the religious nature of secularism in the West interpreted in the immanent processes of

politics and economics In this connect both Christianity and Heavy Metal provide a cultural critique through images of death the grotesque and sacrifice By bringing this religious interpretation of secularism into conversation with the ideas of Georges Batailles Slavoj i ek and J rgen Moltmann this book will demonstrate the positive relationship between Christianity and Heavy Metal

Slavoj Žižek and Christianity Sotiris Mitralexis,Dionysios Skliris,2018-07-18 Slavoj i ek s critical engagement with Christian theology goes much further than his seminal *The Fragile Absolute* 2000 or his *The Puppet and the Dwarf* 2003 or even his discussion with noted theologian John Milbank in *The Monstrosity of Christ* 2009 His reading of Christianity utilising his signature elements of Lacanian psychoanalysis and Hegelian philosophy with modern philosophical currents can be seen as a genuinely original contribution to the philosophy of religion This book focuses on these aspects of i ek s thought with either philosophy and cultural theory or Christian theology serving as starting points of enquiry Written by a panel of international contributors each chapter teases out various strands of i ek s thought concerning Christianity and religion and brings them into a wider conversation about the nature of faith These essays show that far from being an outright rejection of Christian thought and intellectual heritage i ek s work could be seen as a perverse affirmation thereof Thus what he has to say should be of direct interest to Christian theology itself Touching on thinkers such as Badiou Lacan Chesterton and Schelling this collection is a dynamic reading and re reading of i ek s relationship to Christianity As such scholars of theology the philosophy of religion and i ek more generally will all find this book to be of great interest

Paul against the Nations Neil Elliott,2023-11-10 Some of the most heated contests around the apostle Paul today concern the effort to understand him wholly within Judaism and the effort to interpret him over against the culture and ideology of the early Roman Empire Here Neil Elliott argues that these two conversations belong together and must be resolved together by understanding Paul as a Jew living out Israel s ancient hopes under the pressures of Roman imperial power

Religious Imaging in Millennialist America Ashley Crawford,2018-09-19 Ashley Crawford investigates how such figures as Ben Marcus Matthew Barney and David Lynch among other artists novelists and film directors utilize religious themes and images via Christianity Judaism and Mormonism to form essentially mutated variations of mainstream belief systems He seeks to determine what drives contemporary artists to deliver implicitly religious imagery within a secular context Particularly how religious heritage and language and the mutations within those have impacted American culture to partake in an aesthetic of apocalypticism that underwrites it

A New Reading of Jacques Ellul Jacob Marques Rollison,2020-09-10 This book presents an original and dynamic reading of the twentieth century French sociologist and theological ethicist Jacques Ellul Adopting Ellul s use of presence as a hermeneutical key to understanding his work it examines the origins of Ellul s approach to presence in his readings of Kierkegaard and the biblical book of Ecclesiastes highlights the central structural role of presence in Ellul s theological ethics and elucidates a crucial turning point in Ellul s theology following a personal crisis in Ellul s faith and life Drawing from numerous unpublished and untranslated texts Jacob Marques Rollison argues that this crisis involves

confrontation with a critique of presence manifest in Ellul's reading of and engagement with Michel Foucault. Marques Rollison distills Ellul's sociological critiques and theological responses to this crisis, presenting Ellul's evolving theology against the background of major shifts in French intellectual life. In doing so, the author simultaneously calls for renewed engagement with Ellul's prophetic thought, critically appraises Ellul's dialectical theology and Marxist inheritances, and develops a robustly Protestant approach to theological communication ethics for our time.

Paul in the Grip of the Philosophers Peter Frick, 2013-11-01 One of the remarkable developments in the contemporary study of Paul is the dramatic interest in his thought amongst European philosophers. This collection of leading scholars makes accessible a discussion often elusive to those not already conversant in the categories of European philosophy. Each scholar addresses systematically what major philosophers have made of Paul and why it matters.

The Puppet and the Dwarf Slavoj Žižek, 2003-08-29 One of our most daring intellectuals offers a Lacanian interpretation of religion, finding that early Christianity was the first revolutionary collective. Slavoj Žižek has been called an academic rock star and the wild man of theory; his writing mixes astonishing erudition and references to pop culture in order to dissect current intellectual pieties. In *The Puppet and the Dwarf*, he offers a close reading of today's religious constellation from the viewpoint of Lacanian psychoanalysis. He critically confronts both predominant versions of today's spirituality: New Age gnosticism and deconstructionist Levinasian Judaism, and then tries to redeem the materialist kernel of Christianity. His reading of Christianity is explicitly political, discerning in the Pauline community of believers the first version of a revolutionary collective. Since today even advocates of Enlightenment like Jürgen Habermas acknowledge that a religious vision is needed to ground our ethical and political stance in a postsecular age, this book, with a stance that is clearly materialist and at the same time indebted to the core of the Christian legacy, is certain to stir controversy.

The Parallax View Slavoj Žižek, 2009-02-13 In Žižek's long-awaited magnum opus, he theorizes the parallax gap in the ontological, the scientific, and the political, and rehabilitates dialectical materialism. *The Parallax View* is Slavoj Žižek's most substantial theoretical work to appear in many years; Žižek himself describes it as his magnum opus. Parallax can be defined as the apparent displacement of an object caused by a change in observational position; Žižek is interested in the parallax gap separating two points between which no synthesis or mediation is possible, linked by an impossible short circuit of levels that can never meet. From this consideration of parallax, Žižek begins a rehabilitation of dialectical materialism. Modes of parallax can be seen in different domains of today's theory, from the wave-particle duality in quantum physics to the parallax of the unconscious in Freudian psychoanalysis, between interpretations of the formation of the unconscious and

theories of drives In The Parallax View i ek with his usual astonishing erudition focuses on three main modes of parallax the ontological difference the ultimate parallax that conditions our very access to reality the scientific parallax the irreducible gap between the phenomenal experience of reality and its scientific explanation which reaches its apogee in today s brain sciences according to which nobody is home in the skull just stacks of brain meat a condition i ek calls the unbearable lightness of being no one and the political parallax the social antagonism that allows for no common ground Between his discussions of these three modes i ek offers interludes that deal with more specific topics including an ethical act in a novel by Henry James and anti anti Semitism The Parallax View not only expands i ek s Lacanian Hegelian approach to new domains notably cognitive brain sciences but also provides the systematic exposition of the conceptual framework that underlies his entire work Philosophical and theological analysis detailed readings of literature cinema and music coexist with lively anecdotes and obscene jokes

Incontinence of the Void Slavoj Zizek, 2017-09-29 The formidably brilliant i ek considers sexuality ontology subjectivity and Marxian critiques of political economy by way of Lacanian psychoanalysis If the most interesting theoretical interventions emerge today from the interspaces between fields then the foremost interspaceman is Slavoj i ek In Incontinence of the Void the title is inspired by a sentence in Samuel Beckett s late masterpiece Ill Seen Ill Said i ek explores the empty spaces between philosophy psychoanalysis and the critique of political economy He proceeds from the universal dimension of philosophy to the particular dimension of sexuality to the singular dimension of the critique of political economy The passage from one dimension to another is immanent the ontological void is accessible only through the impasses of sexuation and the ongoing prospect of the abolition of sexuality which is itself opened up by the technoscientific progress of global capitalism in turn leading to the critique of political economy Responding to his colleague and fellow Short Circuits author Alenka Zupan i s What Is Sex i ek examines the notion of an excessive element in ontology that gives body to radical negativity which becomes the antagonism of sexual difference From the economico philosophical perspective i ek extrapolates from ontological excess to Marxian surplus value to Lacan s surplus enjoyment In true i ekian fashion Incontinence of the Void focuses on eternal topics while detouring freely into contemporary issues from the Internet of Things to Danish TV series
