How to Not Write Bad Ben Yagoda, 2013-02-05 Ben Yagoda's How to Not Write Bad illustrates how we can all write better more clearly and for a wider readership. He offers advice on what he calls not writing badly which consists of the ability first to craft sentences that are correct in terms of spelling, diction, word choice, punctuation, and grammar and that also display clarity, precision, and grace. Then he focuses on crafting whole paragraphs with attention to cadence, consistency of tone, sentence transitions, and paragraph length. In a fun, comprehensive guide, Yagoda lays out the simple steps we can all take to make our writing more effective, more interesting, and just plain better.

Goals for Academic Writing Alister H. Cumming, 2006-01-01 This book documents the results of a multi year project that investigated the goals for writing improvement among 45 students and their instructors in intensive courses of English as a Second Language (ESL) then a year later in academic programs at two Canadian universities. The researchers present a detailed framework to describe these goals from the perspectives of the students as well as their instructors. The goals are analyzed for groups of students from particular backgrounds internationally for changes over time and in relation to the ESL and academic courses. The authors use activity theory, goal theory, various sociolinguistic concepts, and multiple data sources: interviews, observations, stimulated recalls, questionnaires, and text analyses to provide a contextually grounded perspective on learning, teaching, writing, second language development, and curriculum policy. The book will interest researchers, educators, and administrators of ESL, university, college, and literacy programs around the world.

Writing Without Teachers Peter Elbow, 1998-01-01 In this new edition of his popular book, well known advocate of innovative teaching methods, Peter Elbow outlines a practical program for learning how to write.

Economical Writing, Third Edition Deirdre Nansen McCloskey, 2019-05-17 The book every entrepreneur should read. Better than Strunk and White. The work of a master, Stephen Kinsella, University of Limerick. Economics is not a field that is known for good writing. Charts yes, sparkling prose no. Except that is when it comes to Deirdre Nansen McCloskey. Her conversational and witty yet always clear style is a hallmark of her classic works of economic history, enlivening the dismal science and engaging readers well beyond the discipline. And now she's here to share the secrets of how it's done. Economical Writing is itself economical: a collection of thirty-five pithy rules for making your writing clear, concise, and effective. Proceeding from big picture ideas to concrete strategies for improvement at the level of the paragraph, sentence, or word, McCloskey shows us that good writing, after all, is not just a matter of taste: it's a product of adept intuition and a rigorous revision process. Debunking stale rules, warning us that footnotes are nests for pedants, and offering an arsenal of readily applicable tools and methods, she shows writers of all levels of experience how to rethink the

way they approach their work and gives them the knowledge to turn mediocre prose into magic At once efficient and digestible hilarious and provocative Economical Writing lives up to its promise With McCloskey as our guide it's impossible not to see how any piece of writing on economics or any other subject can be a pleasure to read [Writing for Visual Media](#) Anthony Friedmann,2010 Writing for Visual Media looks at the fundamental problems a writer faces in learning to create content for media that is to be seen rather than read It takes you from basic concepts to practice through a seven step method that helps you identify a communications problem think it through and find a resolution before beginning to write Through successive exercises Writing for Visual Media helps you acquire the basic skills and confidence you need to write effective films corporate and training videos documentaries web sites PSAs TV shows nonlinear media and other types of visual narratives You'll explore your visual imagination and try out your powers of invention The companion web site enriches the content of the printed book with video audio and sample scripts It includes scripts and the video produced from them visual demonstrations of concepts and an interactive illustrated glossary of terms and concepts Please visit www.focalpress.com/cw/friedmann 9780240812359 click on the Interactive Content tab and follow the registration instructions
