[The 24-Hour Tech](#) Andrew G. McCabe, 2015-03-27 The 24 Hour Tech is a training manual for those in the water damage or restoration field. This manual walks the reader through the 20 Step Mitigation Process. It is intended as a complete training manual for new Water Damage Technicians who wish to quickly learn how to properly document insurance losses involving water damage. Andrew McCabe developed this process over years of water damage claims experience. He still uses it today in his consulting practice Claims Delegates. If you want to learn quickly how to properly document and perform water damage mitigation without paying for an expensive certification class, The 24 Hour Tech is perfect for you. The process and manual are also the perfect complement to recent grads of WRT or ASD training classes. You may understand HOW to dry a structure but The 24 Hour Tech teaches you how to get PAID by insurance companies. The system is designed to flow directly into the Xactimate estimating software used by 90% of the insurance claims world.

*Evidence-based Training Methods* Ruth Colvin Clark, 2010 Thanks to a growing body of research evidence we've learned a great deal in the last 20 years about which methods really work when training people. Yet many trainers still use time honored methods and assume they work despite recent evidence to the contrary. Whether you're a classroom instructor, training manager or designer of e-learning, your training will be more effective when you base your methods on evidence. With this book as your guide, you can thoroughly incorporate evidence and learning psychology into your program design, development and delivery decisions. You'll save your organization time and money wasted on training fads that don't work and invest resources more productively in proven training methods. [Amazon.com](#)
