Project Page

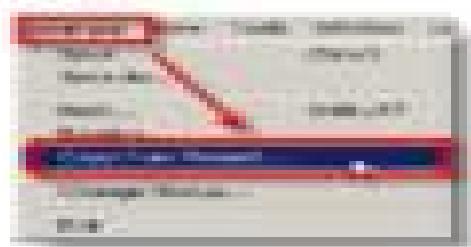

This document shows XACTWARE's built-in Project Copy feature. Please be aware when using this feature that you are creating a **copy** of your original XACTWARE project, and not a **duplicate**.

Project

In this example, Project 1 has been chosen from the Project Selection dropdown. The new project should be a **copy** of the original, but **not** a **duplicate** (which is identical). The original project will remain in the original location, and the new project will be a **copy** of the original.

When the **copy** button is clicked, XACTWARE will create a **copy** of the original project, and not a **duplicate**. This allows for the original project to remain in its original location, and the new project to be a **copy** of the original.
