**Special and Gifted Education: Concepts, Methodologies, Tools, and Applications** Management Association, Information Resources, 2016-04-25 Diverse learners with exceptional needs require a specialized curriculum that will help them to develop socially and intellectually in a way that traditional pedagogical practice is unable to fulfill. As educational technologies and theoretical approaches to learning continue to advance so do the opportunities for exceptional children. Special and Gifted Education Concepts Methodologies Tools and Applications is an exhaustive compilation of emerging research theoretical concepts and real world examples of the ways in which the education of special needs and exceptional children is evolving. Emphasizing pedagogical innovation and new ways of looking at contemporary educational practice this multi volume reference work is ideal for inclusion in academic libraries for use by pre service and in service teachers, graduate level students, researchers and educational software designers and developers

[Kinect Open Source](#)

[Programming Secrets](#) Andrew Davison, 2012-05-22 Program Kinect to do awesome things using a unique selection of open source software. The Kinect motion sensing device for the Xbox 360 and Windows became the world's fastest selling consumer electronics device when it was released 8 million sold in its first 60 days and won prestigious awards such as Gaming Gadget of the Year. Now Kinect Open Source Programming Secrets lets YOU harness the Kinect's powerful sensing capabilities for gaming, science, multimedia projects and a mind boggling array of other applications on platforms running Windows, Mac OS and Linux. Dr Andrew Davison, a user interface programming expert, delivers exclusive coverage of how to program the Kinect sensor with the Java wrappers for OpenNI and NITE which are APIs created by PrimeSense, the primary developers of the Kinect's technology. Beginning with the basics: depth imaging, 3D point clouds, skeletal tracking and hand gestures, the book examines many other topics including Kinect gaming, FAAST style gestures that aren't part of standard NITE motion detection using OpenCV, how to create gesture driven GUIs, accessing the Kinect's motor and accelerometer and other tips and techniques. Inside, free open source APIs to let you develop amazing Kinect hacks for commercial or private use. Full coverage of depth detection, camera and infrared imaging, point clouds, Kinect gaming, 3D programming, gesture based GUIs and more. Online access to detailed code examples on the author's web site plus bonus chapters on speech recognition, beamforming and other exotica

[Physical Management for Neurological Conditions E-Book](#) Sheila Lennon, Gita Ramdharry, Geert Verheyden, 2023-10-04

Physical Management for Neurological Conditions comprehensively covers the essentials of neurorehabilitation, starting with thirteen guiding principles and a new chapter on clinical reasoning and assessment. It discusses the physical management of common neurological conditions such as stroke, traumatic brain injury, spinal cord injury, multiple sclerosis and Parkinson's, followed by less common conditions such as inherited neurological conditions, motor neuron disease, polyneuropathies and muscle disorders. Produced by a team of international editors and experts, this fifth edition is the most up to date evidence based textbook available for undergraduate students and qualified

health professionals alike focusing on selecting appropriate evidence based tools rather than subscribing to any specific treatment approaches. It is a core physiotherapy textbook designed to provide students with everything they need to pass the neurological component of their degree. Fully updated to provide comprehensive information on optimal physical management within movement limitations suitable for any health care context or environment. Using international case studies to apply theory to clinical practice. Easy to navigate and understand for students, new graduates and therapists returning to practice or changing scope of practice. New content on assessment, clinical reasoning, technology based rehabilitation and complex case management including disorders of consciousness and adults with cerebral palsy. Full update of the evidence base within each chapter including reference to the increased use of remote delivery of services and challenges accelerated by the Covid 19 pandemic. New international authors.
