about Fiction Kate Sheckler,2019-01-01 Language is complex Written or spoken the complexity of language makes the medium the versatile tool we need but also creates the potential for a wide variety of misunderstandings and mistakes Whether we are attempting to understand a piece of fiction or writing a text to make our thoughts comprehensible to others the complexity of language is both necessary and fraught That said the inevitable pitfalls don't mean we need to sacrifice precision or accuracy This guide is a step by step process that offers hands on methods for accurate analysis and precise essay construction Chapter one deals with a variety of methods by which to approach stories and novels such that your analysis is structured on carefully constructed logical progression founded on the primary text rather than on hunches and guesswork and chapter two offers infrastructures and scaffolding on which any essay can be structured The structures included in chapter two are not a template and thus do not limit style or content rather they are based on a series of tasks that must be completed for an argument to be convincing As such the tasks offer a kind of map through the process of essay writing that always indicates your next step Contrary to accepted mythologies about analyzing fiction and writing essays neither is a guessing game and this text can help you remove the guesswork from your own process **Writing**

Perspective on Analytical Writing a Focus on Feature and Editorial Writing Richmond S. Anderson Snr., 2021-12-10

The writing of this book *Perspective on Analytical Writing a focus on Feature and Editorial writing* is based on the urge for students majoring in mass communication on the African continent particularly those within the Economic Community of West African States ECOWAS to have a simplistic understanding of the course feature and editorial writing It will be oblivious or a miss calculation to say that there are no texts books on feature and editorial writing on the African continent since I have not had the opportunity to extensively travel within Africa but what could be safely said is for over three decades since I completed my under graduate studies I have not seen a text book on feature and editorial writing readily Based on this experience the book first endeavored in its starting to give students an insight on what an analytical writing is beginning with a drill on perspective and gave a detailed and vivid picture of perspective thereby laying the basis to understanding what feature and editorial writing is all about Although the core focus of the book is on feature and editorial writing but as the title depicts *Perspectives on Analytical Writing* more emphases are placed on perspective and analytical writing in order to provide a deeper understanding for the students as a foundation to grasp the concept of feature and editorial writing Also the book featured research as a component to writing an appreciable feature and editorial piece Added to research other ingredients for writing good feature and editorials are also considered They include opinion persuasion and propaganda Furthermore since feature and editorial writings are within the scope of mass communication and journalism it became imperative for the book to touch on the ethical aspect of the profession aimed at providing students the barometer of knowing what to do and not what to do while writing feature and editorial pieces In its conclusive stage the book dealt with the impact of editorial on political actors as it relates to their involvement in the process of national development As you will come across in your reading mass communication and journalism are catalysts to agenda setting in any society therefore it is expected that stakeholders particularly those involved in the governance process of our countries in Africa to take clue from editorial articles especially those that advocate for positive change to propel them to respond to the developmental needs of Africa Now let s be practical and reflect on a simple analogy referencing a performance by a group of movie stars such as the late popular comedian Peter Ballah of Liberia Kekura Kamara with his popular movie *Malawala Balawala* of Liberia Salla Kamara with his movie *Blood Diamond* of Sierra Leone Mr Ibu John Okafor with the show *Mr Ebu* and his son of Nigeria or John Dumelo with the movie *the tie that binds* of Ghana As these movie stars are performing in their movies the viewers are fascinated with emotion amusement and are thrilled by the performances while in their seats in the theatre movie hall or in their various homes Just as the emotion of viewers is intrigued by the performances or movies so feature and editorial write ups are replica to evoking the emotion of the readers The articles must create a scenario of curiosity to arouse or entice the readers This is the drama in feature and editorial writing
