Wset Foundation Study Guide:

Leary's Global Wineology Charlie Leary, PhD, MA, 2022-11-15 This is the only complete guide to wine education programs classes and scholarship. Those wishing to increase their understanding and appreciation of wine for personal enjoyment or social know how and those who desire to pursue or advance a professional career in the wine industry now confront a plethora of wine education options with a confusing array of titles, degrees, certificates and specializations. Some wine education is free and short while other programs can cost dearly in time and money. Some courses of study take a few hours and others a few years. Institutions offering wine education vary from state colleges and universities to non profit organizations and many profit seeking companies. Sommeliers require training that may be mostly useless to vintners. Someone who wants to deftly handle ordering wine in a restaurant probably doesn't want to learn about wine chemistry or Integrated Pest Management. Which program is right for you? What's the difference between an MS and an MW or an MS in viticulture? Is the education for a CWE the same as that for a WSET Diploma? Are some schools better for learning about wine journalism than the wine business? This book will help answer such questions. There are chapters on wine studies programs and credentials including for sommeliers and those working in the wine trade, university viticulture and enology programs, wine business study programs, free online wine education courses, wine studies scholarships and wine mentorship programs. Advance Praise for Leary's Global Wineology: This groundbreaking book on wine education will be useful to business owners as well as wine enthusiasts. When I bought my wine business I looked far and wide for guidance on classes or programs to strengthen my wine knowledge. Nothing existed. It was an arduous task to figure out which course to take amongst the so many offered. Charlie Leary has now filled that gap. It will be useful to me not only in assessing candidates for employment but also as a resource in training my staff. This guide is indispensable for anyone in the wine trade writ large and has lots of information of use to the general wine drinking public who want to learn more. Buttress's World Guide to Abbreviations of Organizations L. Pitman, 2012-12-06 The previous edition of this directory extended its coverage of the Far East, Australasia and Latin America areas previously under represented. For this new edition emphasis has been given to increasing the number of entries for organizations from Britain, the United States and Australia and particular attention has been paid to new political organizations in Central and Eastern Europe and the former Soviet Union. The number of entries included has gone up to over 68 000 of which over 9 000 are new or amended. Cross references from defunct organizations in the previous edition have been deleted and references indicated by ex and now added for organizations which have changed their name since the previous edition. As before the range of organizations included is broad and only purely local organizations have been excluded. This directory therefore lists official and unofficial organizations national and international on all subjects political, economic and social. Acronyms of parent bodies of subsidiary organizations are given where appropriate and equivalencies are used to link acronyms in different languages for the same.
