web sep 12 2022 newton s third law represents a certain symmetry in nature forces always occur in pairs and one body cannot exert a force on another without experiencing a force itself we sometimes refer to this law loosely as action reaction where the force exerted is the action and the force experienced as a consequence is the reaction

4 4 newton s third law of motion physics openstax - Jul 22 2023

web newton s third law of motion tells us that forces always occur in pairs and one object cannot exert a force on another

without experiencing the same strength force in return we sometimes refer to these force pairs as action reaction pairs where the force exerted is the action and the force experienced in return is the reaction although

newton s third law of motion the physics classroom - Mar 18 2023

web newton s third law of motion describes the nature of a force as the result of a mutual and simultaneous interaction between an object and a second object in its surroundings this interaction results in a simultaneously exerted push
