PRACTICAL MONEY ADVICE FOR YOUNG MEN 2.0 Malik McCotter-Jordan, 2021-12-25 I am not suggesting that you fire your boss i.e. quit your job. In fact I advise you to keep your job. In this book I have a job that's called having more than one stream of income and I talk about that in this book. This is definitely not a BS Tony Robbins personal finance book with over 680 pages about compound interest him shamelessly promoting financial firms that he has an ownership stake in and saving 10% to 20% of your income. This is a raw and real book written by a guy who is only a few steps ahead of you. That's it. I am not a guru. This is not a scam. I put my heart and soul into making this. I wrote this book as if it was for the 18-year-old me. Anyone who leaves a review saying that this book lacks realistic actionable advice is just plain wrong. I even did what most of these personal finance authors don't have the guts to do. I talk about my personal life and the mistakes I made that cost me thousands of dollars. That's why this genre is called personal finance. Right. I get really personal. Some might say it's too personal. If you're a young man who is tired of being broke living paycheck to paycheck not owning any assets being clueless about taxes and not being able to get ahead in the United States then this is the book for you. I started off as a poor black boy in a small town in Alabama on section 8. I currently have a 6-figure net worth. If I can do it you can too. Buy this book today.

Chronicles of Care: A Design History of the COVID-19 Virus

Paul A. Rodgers, Fernando Galdon, Craig Bremner, 2024-04-16 The Covid 19 crisis and the designed interventions that the authors have catalogued in this book prove definitively that design does care. The authors documented this as it evolved every day from the 1st January 2020 to 31st May 2020 inclusive. Then they looked at all of this care and caring from the point of view of design and by the sheer volume of design interventions they have documented illustrate that design is good in a crisis. What the Covid 19 pandemic illustrated is that for the first time in modern history capital was totally irrelevant. Money could not save your life. Only design could. Rapidly designed masks, shelters, hospitals, instructional posters, infographics, dashboards, respirators, sanitisers, virtual and local communities emerged to save us. From January 2020 design became king. The Covid 19 global pandemic presented an ontological reality: design is more than margins or profit. In fact design became extremely valuable when it stopped concentrating on those things and started to care about people's lives. This brief episode in history is still repositioning the status of design and reconfiguring its signifier from consumption to care. The contents of this book cover the outbreak, lockdown and the beginning of the reopening in the UK. In between the book functions as a history of pandemic crisis design interventions. As such it is a research in the moment project where we have illustrated our thoughts.

and insights in tables charts and diagrams We have accepted all design interventions as valid and given them the same role and status by presenting each of them in a standard format No curation No selection No position The task of critical analysis must follow perhaps by us certainly by others Country Guide and Nor'west Farmer ,1928 **Farmers' Guide** ,1901
