**Global esports** Dal Yong Jin,2021-03-25 Global esports explores the recent surge of esports in the global scene and comprehensively discusses people's understanding of this spectacle. By historicizing and institutionalizing esports the contributors analyze the rapid growth of esports and its implications in culture and digital economy. Dal Yong Jin curates a discussion as to why esports has become a global phenomenon. From games such as Spacewar to Starcraft to Overwatch a key theme distinguishing this collection from others is a potential shift of esports from online to mobile gaming. The book addresses why many global game players and fans play and enjoy online and mobile games in professional game competitions and therefore they investigate the manner in which the transfer to and between online and mobile gaming culture is occurring in a specific subset of global youth. The remaining focus identifies the major platforms used to enjoy esports including broadcasting and smartphones. By analyzing these unexamined or less discussed agendas this book sheds light on the current debates on the growth of global esports culture

**Rings of Fire** Leonard Sweet,2019 What Lies Ahead for Christians and the World. If you follow the works of bestselling authors Malcolm Gladwell, Faith Popcorn, Daniel Pink and other trend forecasters you'll appreciate learning about the more than 25 rings of fire that lie ahead for Christians and the world. In the face of eruptive and disruptive changes in technology, communications, bioethics and beyond, how do we fight fire with fire not only catching up to our culture but also leading our friends and neighbors toward God? No one has done more to startle the church from its slumber than Len Sweet and no one has equipped the church as effectively. This is a benchmark book from a seminal leader of the modern evangelical movement. More than 25 game-changing and century-defining rings of fire. Stimulating questions for reflection and discussion from scholar and pastor Mark Chironna

**Four Battlegrounds** Paul Scharre,2023-02-28 An NPR 2023 Books We Love Pick One of the Next Big Idea Club's Must Read Books An invaluable primer to arguably the most important driver of change for our future P.W. Singer, author of *Burn In*. An award-winning defense expert tells the story of today's great power rivalry, the struggle to control artificial intelligence. A new industrial revolution has begun. Like mechanization or electricity before it, artificial intelligence will touch every aspect of our lives and cause profound disruptions in the balance of global power, especially among the AI superpowers China, the United States and Europe. Autonomous weapons expert Paul Scharre takes readers inside the fierce competition to develop and implement this game-changing technology and dominate the future. *Four Battlegrounds* argues that four key elements define this struggle: data, computing power, talent and institutions. Data is a vital

resource like coal or oil but it must be collected and refined Advanced computer chips are the essence of computing power control over chip supply chains grants leverage over rivals Talent is about people which country attracts the best researchers and most advanced technology companies The fourth battlefield is maybe the most critical the ultimate global leader in AI will have institutions that effectively incorporate AI into their economy society and especially their military Scharre's account surges with futuristic technology He explores the ways AI systems are already discovering new strategies via millions of war game simulations developing combat tactics better than any human tracking billions of people using biometrics and subtly controlling information with secret algorithms He visits China's National Team of leading AI companies to show the chilling synergy between China's government private sector and surveillance state He interviews Pentagon leadership and tours U.S. Defense Department offices in Silicon Valley revealing deep tensions between the military and tech giants who control data chips and talent Yet he concludes that those tensions inherent to our democratic system create resilience and resistance to autocracy in the face of overwhelmingly powerful technology Engaging and direct Four Battlegrounds offers a vivid picture of how AI is transforming warfare global security and the future of human freedom and what it will take for democracies to remain at the forefront of the world order
