AI help you unlock your store's full potential today **Successful Business Model Transformations in Disruptive Times** Thomas Rudolph, Markus Schweizer, 2024-06-17 The authors offer solutions for established corporations facing disruptive challenges. Based on extensive research and discussion, a unique management approach—the High 5 approach—has been developed to promote successful self-disruption in established corporations. At the center of this approach is the transformation of the core business. The book supports the idea of permanent self-disruption as the key to success for established players. *Successful Business Model Transformations in Disruptive Times* is aimed at the management of various industries. This book provides managers in established corporations with a theoretically sound and practical guide.

Understanding Business Ethics Peter A. Stanwick, Sarah D. Stanwick, 2024-05-08 *Understanding Business Ethics* Fourth Edition offers an impactful exploration into the realm of ethics in the global business environment. Authors Peter A. Stanwick and Sarah D. Stanwick integrate four key dimensions to differentiate their work from other ethics textbooks: a global perspective, real-world business cases, comprehensive ethics topics, and a consistent theme linking each chapter. Whether it's uncovering the intricate relations between businesses and their stakeholders, discussing the effects of financial reporting, or exploring the ethical implications of information technology, marketing, human resources, and the natural environment, this textbook equips readers with a robust ethical framework for the business world. Additionally, the timely case studies from diverse industries demonstrate the very real consequences of ethical and unethical decisions. This text is offered in Sage Vantage, an intuitive learning platform that integrates quality Sage textbook content with assignable multimedia activities and auto-graded assessments to drive student engagement and ensure accountability. Unparalleled in its ease of use and built for dynamic teaching and learning, Vantage offers customizable LMS integration and best-in-class support. Watch this video walkthrough and see how Vantage works. **Technical Writing** Phillip A. Laplante, Chris Laplante, 2025-11-25 *Technical Writing: A Practical Guide for Engineers, Scientists, and Nontechnical Professionals* enables readers to write, edit, and publish materials of a technical nature, including books, articles, reports, and electronic media. Written by experienced practicing engineers, this guide complements traditional technical writing manuals through the presentation of firsthand examples that help readers understand practical considerations in writing and producing technical content. These examples illustrate how a publication originates as well as explain various challenges and solutions. The third edition features the following: New and updated exercises, examples, and case studies; New content on software systems documentation, Treatment of plagiarism, to incorporate issues in generative artificial intelligence, AI, open access, archiving, and more; Coverage of popular writing and collaboration tools such as Grammarly, Overleaf, and Google Docs; Increased conversation of writing for non-native English speakers; Latest standards and research. Written in an informal, conversational style unlike traditional writing texts, this book contains many interesting vignettes and personal stories to add interest to otherwise stodgy lessons. It is aimed at students and professionals in the science and engineering domains. **Co-Intelligence** Ethan Mollick, 2024-04-02 *AN INSTANT NEW*

YORK TIMES BESTSELLER From Wharton professor and author of the popular One Useful Thing Substack newsletter Ethan Mollick comes the definitive playbook for working learning and living in the new age of AI Something new entered our world in November 2022 the first general purpose AI that could pass for a human and do the kinds of creative innovative work that only humans could do previously Wharton professor Ethan Mollick immediately understood what ChatGPT meant after millions of years on our own humans had developed a kind of co intelligence that could augment or even replace human thinking Through his writing speaking and teaching Mollick has become one of the most prominent and provocative explainers of AI focusing on the practical aspects of how these new tools for thought can transform our world In Co Intelligence Mollick urges us to engage with AI as co worker co teacher and coach He assesses its profound impact on business and education using dozens of real time examples of AI in action Co Intelligence shows what it means to think and work together with smart machines and why it's imperative that we master that skill Mollick challenges us to utilize AI's enormous power without losing our identity to learn from it without being misled and to harness its gifts to create a better human future Wide ranging hugely thought provoking optimistic and lucid Co Intelligence reveals the promise and power of this new era

[The Evolution of Management Thought](#) Daniel A. Wren, Arthur G. Bedeian, 2023-09-27 The new edition of the canonical text on the history and development of management thought Far more than a chronicle of the historical

development of modern management's many roots the newly released ninth edition of The Evolution of Management Thought by Daniel A Wren and Arthur G Bedeian is a fascinating telling of how ideas about the nature of work the nature of human beings and the nature of organizations have changed throughout history Its methodology is analytic synthetic and interdisciplinary It is analytic in that it examines the backgrounds experiences and beliefs of people who made significant contributions to management thinking It is synthetic in that it weaves developmental trends social movements and environmental forces into a conceptual framework for understanding how management thinking has evolved within and across generations It is interdisciplinary in that it draws insights from economics history political science psychology and sociology to explain why management thinking has developed as it has The authors trace the intellectual history of modern management thought as an activity and as an academic discipline in a way that makes reading The Evolution of Management Thought a thoroughly enjoyable encounter Designed for upper level and graduate courses this new edition further cements The Evolution of Management Thought's place as the standard text in the field of management history for more than half a century
