Tamny,2016-05-24 The Federal Reserve is one of the most disliked entities in the United States at present right alongside the  
IRS Americans despise the Fed but they're also generally a bit confused as to why they distrust our central bank Their

animus is reasonable though because the Fed's most famous function targeting the Fed funds rate is totally backwards John Tamny explains this backwardness in terms of a Taylor Swift concert followed by a ride home with Uber In modern times he points out the notion of credit has been perverted so that most people believe it's money and that the supply of it can therefore be increased This false notion has aggrandized the Fed with power that it can't possibly use wisely The contrast between the grinding poverty of Baltimore and the abundance of Silicon Valley helps illustrate the problem along with stories about Donald Trump Robert Downey Jr Jim Harbaugh the Michigan football coach and robots Who Needs the Fed makes a sober case against the Federal Reserve by explaining what credit really is and why the Fed's existence is inimical to its creation Readers will come away entertained much more knowledgeable and prepared to argue that the Fed is merely superfluous on its best days but perilous on its worst *Printers' Ink* ,1924
