The Careers Project is a study of the preparation all students in public middle and high schools receive to explore career options and the relationship between that preparation and California's state and regional economies. The California Research Bureau CRB undertook this research at the request of a bipartisan group of members of the California Legislature with funding support from the James Irvine Foundation. An economic analysis was conducted of ten industry clusters and a related survey of representatives of business and industry. The information gathered from the economic analysis was used as a basis for launching a survey of representatives of business and industry. This report provides information resulting from the economic analysis for the following ten industry clusters in California: 1 Basic Information Services, 2 Manufacturing Value Chain including Logistics Production and Design, 3 Health Science and Services, 4 Entertainment and Tourism, 5 Construction, 6 Food Chain including Support Production Processing and Distribution, 7 Professional and Technical Services, 8 Government, 9 Wholesale Trade and 10 Retail Trade. Appended are 1 California Map of Nine Economic Regions, 2 O\*Net Job Skills, 3 O\*Net Job Zones and 4 O\*Net Specific Vocational Preparation.     Factory Management and Maintenance, 1952-07     Improving Reading Comprehension Skills John Langan, Harley F.
