PREFACE THE Author of this very practical treatise on Scotch Loch Fishing desires clearly that it may be of use to all who had it He does not pretend to have written anything new but to have attempted to put what he has to say in as readable a form as possible Everything in the way of the history and habits of fish has been studiously avoided and technicalities have been used as sparingly as possible The writing of this book has afforded him pleasure in his leisure moments and that pleasure would be much increased if he knew that the perusal of it would create any bond of sympathy between himself and the angling community in general This section is interleaved with blank sheets for the readers notes The Author need hardly say that any suggestions addressed to the case of the publishers will meet with consideration in a future edition We do not pretend to write or enlarge upon a new subject Much has been said and written and well said and written too on the art of fishing but loch fishing has been rather looked upon as a second rate performance and to dispel this idea is one of the objects for which this present treatise has been written Far be it from us to say anything against fishing lawfully practised in any form but many pent up in our large towns will bear us out when we say that on the whole a days loch fishing is the most convenient One great matter is that the loch fisher is dependent on nothing but enough wind to curl the water and on a large loch it is very seldom that a dead calm prevails all day and can make his arrangements for a day weeks beforehand whereas the stream fisher is dependent for a good take on the state of the water

and however pleasant and easy it may be for one living near the banks of a good trout stream or river it is quite another matter to arrange for a days river fishing if one is looking forward to a holiday at a date some weeks ahead Providence may favour the expectant angler with a good day and the water in order but experience has taught most of us that the good days are in the minority and that as is the case with our rapid running streams such as many of our northern streams are the water is either too large or too small unless as previously remarked you live near at hand and can catch it at its best A common belief in regard to loch fishing is that the tyro and the experienced angler have nearly the same chance in fishing the one from the stern and the other from the bow of the same boat Of all the absurd beliefs as to loch fishing this is one of the most absurd Try it Give the tyro either end of the boat he likes give him a cast of ally flies he may fancy or even a cast similar to those which a crack may be using and if he catches one for every three the other has he may consider himself very lucky Of course there are lochs where the fish are not abundant and a beginner may come across as many as an older fisher but we speak of lochs where there are fish to be caught and where each has a fair chance Again it is said that the boatman has as much to do with catching trout in a loch as the angler Well we dont deny that In an untried loch it is necessary to have the guidance of a good boatman but the same argument holds good as to stream fishing

the three Rs in preparation for possible professional careers When he was 6 years old Barrie's next older brother David his mother's favourite died two days before his 14th birthday in an ice skating accident This left his mother devastated and Barrie tried to fill David's place in his mother's attentions even wearing David's clothes and whistling in the manner that he did One time Barrie entered her room and heard her say Is that you I thought it was the dead boy she was speaking to wrote Barrie in his biographical account of his mother Margaret Ogilvy 1896 and I said in a little lonely voice No it's not him it's just me Barrie's mother found comfort in the fact that her dead son would remain a boy forever never to grow up and leave her Eventually Barrie and his mother entertained each other with stories of her brief childhood and books such as Robinson Crusoe works by fellow Scotsman Walter Scott and The Pilgrim's Progress **A Window in Thrums** J. The Complete Thrum Series (Large Print) J. M. Barrie, 2015-01-14 Early this morning I opened a window in my schoolhouse in the glen of Quharity awakened by the shivering of a starving sparrow against the frosted glass As the snowy sash creaked in my hand he made off to the water spout that suspends its tangles of ice over a gaping tank and rebounding from that with a quiver of his little black breast bobbed through the network of wire and joined a few of his fellows in a forlorn hop round the henhouse in search of food Two days ago my hilarious bantam cock saucy to the last my cheeriest companion was found frozen in his own water trough the corn saucer in three pieces by his side Since then I have taken the hens into the house At meal times they litter the hearth with each other's feathers but for the most part they give little trouble roosting on the rafters of the low roofed kitchen among staves and fishing rods J.
