Salvo, 2013-02-11 Written by a massage therapist for massage therapists Mosby's Pathology for Massage Therapists 3rd Edition provides direct information along with focused recommendations. Coverage of over 340 pathologies helps you appropriately tailor massage treatment and more than 750 full color photographs and illustrations make it easier to recognize common pathologies. Written by massage therapy educator and practitioner Susan Salvo this resource provides the pathology knowledge you need to succeed on licensure and certification exams and in practice. A traffic light icon appears before each pathology in the book designating whether massage is contraindicated red, local contraindication yellow, or indicated green for that particular pathology. Consistent format for each chapter makes it easy to find key information with learning objectives, list of pathologies, system overview and pathologies including description, etiology, signs and symptoms, treatment and massage considerations. Student friendly features in each chapter include learning objectives and self tests that measure your comprehension. Medical Technology boxes highlight special populations such as clients in wheelchairs or with pacemakers and explain what the medical device is and what special precautions or contraindications you should be aware of before working on these clients. Spotlight on Research boxes summarize recent studies of massage therapy and its effects. Student resources on an Evolve companion website include interactive activities, video clips of techniques, animations, the Body Spectrum coloring book, flashcards, review questions, additional case studies, an image collection, an audio glossary, study tips, stress busting tips, research updates and more.
