**Internet Health Report 2019** Mozilla Foundation, 2019 This annual report is a call to action to recognize the things that are having an impact on the internet today and to embrace the notion that we as humans can change how we make money govern societies and interact with one another online We invite you to participate in setting an agenda for how we can work together to create an internet that truly puts people first This book is neither a country level index nor a doomsday clock Our intention is to show that while the worldwide consequences of getting things wrong with the internet could be huge for peace and security for political and individual freedoms for human equality the problems are never so great that nothing can be done More people than you imagine are working to make the internet healthier by applying their skills creativity and personal bravery to business technology activism policy and regulation education and community development

**Genius Makers** Cade Metz, 2021-03-16 This colorful page turner puts artificial intelligence into a human perspective Through the lives of Geoff Hinton and other major players Metz explains this transformative technology and makes the quest thrilling Walter Isaacson author of *The Code Breaker* Recipient of starred reviews in both *Kirkus* and *Library Journal* THE UNTOLD TECH STORY OF OUR TIME What does it mean to be smart To be human What do we really want from life and the intelligence we have or might create With deep and exclusive reporting across hundreds of interviews *New York Times* Silicon Valley journalist Cade Metz brings you into the rooms where these questions are being answered Where an extraordinarily powerful new artificial intelligence has been built into our biggest companies our social discourse and our daily lives with few of us even noticing Long dismissed as a technology of the distant future artificial intelligence was a project consigned to the fringes of the scientific community Then two researchers changed everything One was a sixty four year old computer science professor who didn't drive and didn't fly because he could no longer sit down but still made his way across North America for the moment that would define a new age of technology The other was a thirty six year old neuroscientist and chess prodigy who laid claim to being the greatest game player of all time before vowing to build a machine that could do anything the human brain could do They took two very different paths to that lofty goal and they

disagreed on how quickly it would arrive But both were soon drawn into the heart of the tech industry Their ideas drove a new kind of arms race spanning Google Microsoft Facebook and OpenAI a new lab founded by Silicon Valley kingpin Elon Musk But some believed that China would beat them all to the finish line Genius Makers dramatically presents the fierce conflict among national interests shareholder value the pursuit of scientific knowledge and the very human concerns about privacy security bias and prejudice Like a great Victorian novel this world of eccentric brilliant often unimaginably yet suddenly wealthy characters draws you into the most profound moral questions we can ask And like a great mystery it presents the story and facts that lead to a core vital question How far will we let it go **L'intelligenza matematica** Junaid Mubeen,2023-06-06 Si parla cos tanto della minaccia rappresentata dalle macchine intelligenti che sembra ormai inevitabile doversi arrendere ai signori robot Ma Junaid Mubeen non ancora disposto a gettare la spugna Per lui abbiamo un vantaggio creativo sulle macchine frutto di un particolarissimo sistema di pensiero che gli esseri umani hanno sviluppato nel corso dei millenni E sappiamo bene chi ce lo fornisce la matematica anche se spesso insegnata male e la sua natura il pi delle volte viene fraintesa I computer sono bravi a far di calcolo produrre schemi e a eseguire alla perfezione operazioni estremamente complicate Non vi dubbio dove c da calcolare le macchine regnano sovrane Ma Mubeen identifica sette aree dell'intelligenza in cui gli esseri umani possono mantenere un vantaggio cruciale ed esplorando tutte queste aree ci svela un mondo affascinante in cui possiamo sviluppare i nostri superpoteri esclusivamente umani

**Empire of AI** Karen Hao,2025-05-20 A New York Times Notable Book Finalist for the National Book Critics Circle Award An Instant New York Times Bestseller Named a Best Book of the Year by Smithsonian and Scientific American A bestselling page turner that has made waves not just in Silicon Valley but around the world With Empire of AI Hao is fundamentally shaping many people's perceptions and understanding of the company at the center of the AI revolution TIME Magazine TIME100 AI 2025 Excellent and deeply reported Tim Wu The New York Times Startling and intensely researched an essential account of how OpenAI and ChatGPT came to be and the catastrophic places they will likely take us Vulture From a brilliant longtime AI insider with intimate access to the world of Sam Altman's OpenAI from the beginning an eye opening account of arguably the most fateful tech arms race in history reshaping the planet in real time from the cockpit of the company that is driving the frenzy When AI expert and investigative journalist Karen Hao first began covering OpenAI in 2019 she thought they were the good guys Founded as a nonprofit with safety enshrined as its core mission the organization was meant its leader Sam Altman told us to act as a check against more purely mercantile and potentially dangerous forces What could go wrong Over time Hao began to wrestle ever more deeply with that question Increasingly she realized that the core truth of this massively disruptive sector is that its vision of success requires an almost unprecedented amount of resources the compute power of high end chips and the processing capacity to create massive large language models the sheer volume of data that needs to be amassed at scale the humans cleaning up that data for sweatshop wages throughout the Global South and a truly alarming spike in the usage

of energy and water underlying it all The truth is that we have entered a new and ominous age of empire only a small handful of globally scaled companies can even enter the field of play At the head of the pack with its ChatGPT breakthrough how would OpenAI resist such temptations Spoiler alert it didn't Armed with Microsoft's billions OpenAI is setting a breakneck pace chased by a small group of the most valuable companies in human history toward what end not even they can define All this time Hao has maintained her deep sourcing within the company and the industry and so she was in intimate contact with the story that shocked the entire tech industry Altman's sudden firing and triumphant return The behind the scenes story of what happened told here in full for the first time is revelatory of who the people controlling this technology really are But this isn't just the story of a single company however fascinating it is The g forces pressing down on the people of OpenAI are deforming the judgment of everyone else too as such forces do Naked power finds the ideology to cloak itself no one thinks they're the bad guy But in the meantime as Hao shows through intrepid reporting on the ground around the world the enormous wheels of extraction grind on By drawing on the viewpoints of Silicon Valley engineers Kenyan data laborers and Chilean water activists Hao presents the fullest picture of AI and its impact we've seen to date alongside a trenchant analysis of where things are headed An astonishing eyewitness view from both up in the command capsule of the new economy and down where the real suffering happens Empire of AI pierces the veil of the industry defining our era     *Adam D'Angelo's Journey Through Facebook, Quora, and AI* Charles V Anderson, 2025-06-20 What does it mean to quietly shape the digital world without ever seeking the spotlight In Adam D'Angelo's Journey Through Facebook Quora and AI you'll meet one of the most influential yet least public figures in modern technology From his early days as Facebook's first Chief Technology Officer through the founding of Quora to his key role at OpenAI and the creation of Poe Adam D'Angelo has helped define how millions ask search and understand without ever chasing headlines This book goes far beyond surface level stories It carefully explores how Adam's quiet leadership technical precision and long term thinking helped shape some of the most important platforms of the past two decades You'll follow his transition from building Facebook's engineering backbone to building a new kind of knowledge system with Quora to sitting at the center of the AI debate during OpenAI's most dramatic turning point You'll also see how he's rethinking what it means to learn and explore in the age of chatbots and why his belief in thoughtful structured human centered tools is more relevant now than ever Meticulously researched and deeply written this book is not just about a tech figure it's about values restraint and the possibility of building responsibly in an industry that often rewards the opposite     **The Genius Makers** Cade Metz, 2021-03-18     **The Optimist** Keach Hagey, 2025-05-20
